

SECTION VI — EUROPEAN ECONOMIC AND SOCIAL COMMITTEE

INTRODUCTION

The introduction to the budget request has been provided by each Institution together with the statement of estimate for its respective budget section. In line with Article 314§1 of the TFEU, which states that: '[...] each Institution shall [...] draw up estimates of its expenditure for the following financial year. The Commission shall consolidate these estimates in a draft budget, which may contain different estimates.', the Commission has exceptionally adjusted the estimates of all Institutions. It is thus possible that figures referred to in the introduction of a specific budget section are different from those integrated into the Draft Budget.

1 INTRODUCTION

Securing adequate budgetary resources for the European Economic and Social Committee (EESC) is essential to ensure that the institution can fully deliver on its Treaty-based mandate as the organised civil society advisory body of the European Union. As recognised in the EU Treaties, the EESC plays a unique role in channelling the expertise, priorities and concerns of employers, workers, and diverse social, economic and civil society organisations into the Union's policymaking process, thus strengthening participatory democracy and ensuring that EU legislation reflects the realities experienced across Member States.

The 2027 financial year represents a decisive moment: it is the final year of the current Multiannual Financial Framework and one in which legislative activity will remain intense. Given the current geopolitical context, adjustments may be required to respond to evolving geopolitical, economic and social circumstances. In this context, the EESC must be equipped with the resources needed to guarantee the continued quality, timeliness and relevance of its advisory output.

This budget request focuses on three priorities. The first concerns maintaining an adequate level of activity by EESC members, who are civil society stakeholders in the EU legislative process, as they convey the views of organised civil society to EU decision-makers. EESC members are appointed in a transparent process by the Council as representatives of European civil society. They do not receive a salary for this and serve the Committee alongside their professional obligations. Their contribution is indispensable for ensuring that EU policymaking reflects the perspectives and experience of civil society stakeholders across the Union.

Since 2024, the Committee has been undergoing an ambitious transformation based on strengthening its impact, trust and purpose. This modernisation is aimed at reinforcing the EESC's institutional relevance and impact as Europe's 'house of civil society', strengthening democratic participation, supporting the EU's strategic priorities and ensuring that policy choices reflect societal needs and genuine feedback from civil society on policy implementation. The transformation involves both political and administrative dimensions, including enhanced outreach, reformed working methods, strengthened communication, and forward-looking engagement with candidate countries and emerging policy domains.

To meet these objectives, it is essential that EESC members have the means to contribute fully and effectively. Their activities – such as attending meetings, participating in missions and delivering high-quality expertise – generate expenditure treated as non-salary related and subject to the 2% cap imposed by the European Commission. However, budgetary evidence demonstrates that this cap cannot be applied to budget lines directly linked to members' work without adversely affecting the Committee's core business and limiting its ability to produce the opinions and initiatives expected by the European Commission, the Parliament and the Council. For example, in 2025 the gap between the first inflation-related adjustment of allowances since 2013 and the limited increase of the corresponding budget lines led to section meetings being postponed or cancelled, undermining the EESC's ability to fulfil its mandate.

The second priority is about digital transformation, with a focus on the re-engineering of financial and budgetary tools, and on cyber and data cloud security.

Despite repeated requests and the support expressed by the Parliament in the context of the discharge procedure, no additional resources were allocated to the EESC for 2026. As a result, the Committee was not even granted the means to fulfil its obligation to achieve the target referred to in Regulation (EU, Euratom) 2023/28411 of dedicating around 10% of its total IT expenditure to cybersecurity. Even with the economies of scale generated through joint IT services with the Committee of the Regions, only 4% of their budgets could be earmarked for cybersecurity.

Therefore, investing in cybersecurity and data cloud security with the aim of fulfilling the obligations and carrying out essential measures – such as advanced tools, CERTEU integration and resilience improvements – can only be financed sustainably through one-off injections like the planned 2027 cyber and data cloud security upgrade. The need for investment in cybersecurity is also underlined by the Parliament in the 2024 Discharge, warning that persistent underinvestment in cybersecurity poses a structural risk to the integrity of the EU.

Well aware of the constraints imposed by the Multiannual Financial Framework, as highlighted in the previous budget exercises, the EESC believes that those constraints are more problematic for smaller institutions like the EESC owing to their reduced financial flexibility and limited options for reallocating funds without impacting key services, like IT services, which are essential if the institution is to function effectively and efficiently.

The third priority is communication and outreach. To strengthen the visibility and impact of its contribution within the political and legislative cycle, the EESC aims to step up outreach efforts to enhance the dissemination and follow-up of its legislative work and ensure that – through organised civil society – European citizens understand the impact achieved by its members and staff.

It should be underlined that the EESC's remit extends well beyond standard consultative work. The Committee delivers own-initiative and exploratory opinions requested by the rotating Presidency of the Council of the EU, the European Commission and European Parliament – thereby providing upstream input into the EU's policy agenda. It also provides the secretariat for the EU's Domestic Advisory Groups established under trade agreements, supports the European Citizens' Initiative through awareness-raising and convening functions, applies a structured Youth Test in order to incorporate the youth perspective into selected opinions, and works together with civil society in neighbouring and enlargement countries – through joint bodies and platforms – to help prepare organised civil society for future accession and closer association with the EU.

For this reason, communication and outreach activities are among the three EESC priorities for 2027.

In the broader EU context, civil society involvement and structured dialogue with its stakeholders, the EESC members, are repeatedly recognised as indispensable for the legitimacy, effectiveness and democratic anchoring of EU policies.

Ensuring that the EESC is sufficiently funded to perform this role is therefore not only a matter of internal institutional functioning, but a contribution to the EU's ability to deliver policies that are inclusive, transparent and resilient.

For all these reasons, the EESC's 2027 budget request seeks to guarantee the resources required to preserve a strong, active and impact-driven Committee – one capable of representing organised civil society through members transparently appointed by the Council of the EU, supporting the Union's democratic fabric and contributing meaningfully to a complex and fast-evolving policy landscape.

The total budget requested for 2027 amounts to **EUR 187 651 416**.

The key figures of the 2027 draft estimates are:

- A total increase of 4.47% compared to the year 2026¹,
- An increase of 2.52% for salary-related items, mainly driven by the salary parameters provided by the Commission. The request entails adding four additional posts to the establishment plan, carefully considered and aligned with the priorities set for 2027. The need for these additional posts is clearly defined and specifically targeted.
- An increase of 7.09% for all non-salary related expenses is primarily driven by the 2027 need to empower members in their political work for the EESC and ensure that the voice of organised civil society in Europe is heard. Furthermore, it ensures that the digital transformation and cybersecurity priorities of the EESC can be implemented.
- An increase of 9.72% on members' travel costs and allowances, intended to preserve political activity according to the provisions set in the Treaty and to maintain budget availability in real terms. Well aware of the overall tight budgetary situation under the current MFF, the Bureau decided to revise and decrease the number of its standing bodies in September 2025 in order to prioritise expenditure on members' activities in areas where the EESC can be most impactful. The requested increase for 2027 partially offsets the impact of the significant inflation over the past decade and takes into account the expected increase in legislative activity in the areas of green and digital transitions, competitiveness, resilience and social inclusion. It should be recalled that the EESC's activities extend far beyond the preparation of opinions, encompassing its role as secretariat for all EU Domestic Advisory Groups, its support for the European Citizens' Initiative, the application of a structured Youth Test, its involvement in the European Semester and its work together with civil society in neighbouring and enlargement countries.
- A total increase of 7.99% in the joint credits (in common with the CoR), which, apart from legal obligations related to the indexation of contracts and building safety, aims to fund transformation processes ensuring that the EESC implements the digital transformation, including the use of AI and cloud computing in an innovative yet safe way, thus achieving operational savings. Furthermore, in the area of cybersecurity (an activity shared between the EESC and the CoR), as pointed out above, the EESC needs to be able to fulfil the legal obligations imposed under the Cybersecurity Regulation. Smaller institutions incur higher per capita cybersecurity costs than larger ones, primarily due to less-favourable economies of scale and proportionally higher fixed costs per employee.

2 PRIORITIES IN THE EESC BUDGET

The 2027 budget request aims not only to ensure the baseline functioning of EESC operations, in accordance with our EU Treaty-defined mission and values, but also to support the transformation process initiated.

It is important to acknowledge that small institutions like the EESC, with a limited administrative and no operational budget, are particularly challenged by the continuous increase in the EU's responsibilities and legislative work, which is matched by a parallel increase in the number of EESC activities. With limited non-critical spending areas and despite the high implementation rate of its budget despite the constraints of Article 29 of the Financial Regulation, and the principle of specification, the EESC has shown sound financial management of its resources but cannot manage further budgetary constraints without impacting its core activities.

For 2027, a refocusing of activities in terms of prioritisation will be necessary to make the best use of the existing human and financial resources during times of increasing scarcity to ensure that every available resource is used to its fullest potential for the cause we serve, in an organisation that prioritises impact, trust and purpose as well as members' and staff well-being.

¹ For the year 2026 compared to 2025 the final increase is 3.22%, following cuts made by the European Commission to the initial EESC draft estimates and which have been endorsed by the Budgetary Authority.

In this challenging context, the EESC considers it essential to present a budget in which, apart from respecting legal obligations², the main priorities are:

- **Empowering the political work of the EESC:** The core function of the administration is to ensure that EESC members can effectively fulfil their institutional roles and deliver timely, high-quality advice to the European Commission, the European Parliament, and the Council of the European Union. Appointed by the Council from all EU Member States, EESC members receive an allowance based on Art. 301 TFEU for the provision of their expertise. Members often need to adjust their personal and professional lives to accommodate EESC meeting schedules. They arrange their activities in such a way as to make the best use of their time in Brussels by arranging back-to-back meetings, thus reducing travel costs. They are reimbursed for actual travel expenses within a set limit, receive modest compensation for travel time and distance, and are entitled to an allowance of EUR 367 for accommodation and living expenses per meeting day.

This allowance was updated by the Council on 21 June 2024 with Decision (EU) 2024/1809, the first adjustment in 11 years. This represents a 26.55% increase in the daily allowance compared to 2013, intended to compensate for the rising costs over the years. However, this increase was not reflected in the budget line, which led to meetings being cancelled and meeting requests being rejected at the end of 2025, despite the self-imposed restructuring and reduction in the number of bodies. The necessary meeting cancellations and postponements of section meetings to 2026, which amounted to almost EUR 1 million, greatly impacted the EESC's work. This was particularly painful as it occurred at the beginning of a new mandate. Newly elected members and re-elected members alike are well aware of the budgetary restrictions but must be given the means to carry out their duties.

The funding request in this budget area seeks to ensure the EESC's smooth functioning in 2027, serving the interests of all EU institutions that rely on thorough and prompt opinions from organised civil society.

- **Financing of the digital transformation processes:** The planned transformation processes are a genuine investment to make the EESC future-proof by adapting to new realities such as AI. They will increase staff productivity and achieve operational savings by concentrating human input in areas with high added value while using AI in a way that complies with the AI Act.

Digital transformation is rooted in a rigorous analysis of processes, carried out using a well-established technique (Business Process Mapping) and aimed at simplifying procedures as far as possible before automating them, thereby enabling red tape to be eliminated.

The Members' Financial Journey³ will be digitalised to adapt and streamline internal processes, introducing paperless workflows that speed up the process and enable expenditure to be monitored in real-time. This allows for more effective budgetary planning and monitoring than working with forecasts alone.

Particular attention continues to be given to cybersecurity, which is a significant challenge today for all EU institutions. Investing in cybersecurity involves protecting against risks such as personal data breaches and reputational harm, securing our systems and data, and preserving the trust of our stakeholders. The Cybersecurity Regulation (EU, Euratom) 2023/2841 sets clear expectations for the budget to be allocated to cybersecurity across the EU institutions. Each EU entity must allocate a sufficient portion of its ICT budget to cybersecurity, with a long-term indicative target of at least 10% of the total ICT budget. Despite the repeated requests and the support from the rapporteur of the European Parliament, only 3.95% of the DIIT budget was allocated by the budgetary authority to cybersecurity in 2025. Therefore, additional efforts are needed and to be effective, both Committees need to work together. A joint approach would cover system and application upgrades, advanced cybersecurity tooling and making use of additional CERT-EU services. Each Committee would contribute according to the sharing key, which corresponds to EUR 108 580 for the EESC.

² Legal obligations: rental and leases of buildings, indexation of existing contracts, salary indexation.

³ "Members' Financial Journey" refers to the administrative and financial process covering EESC members' meeting-related entitlements, from authorisation to reimbursement and payment.

Taking the same approach as the Committee of the Regions, the EESC will need to invest a one-off amount of EUR 1 350 082 for cybersecurity and cloud data security, in order to achieve the budgetary objective of the Cybersecurity Regulation in 2027. This one-off investment will increase the IT budget request under Article 2 1 0 by 21.52% compared to 2026, to achieve the cybersecurity objective under the current MFF.

This domain also aims to boost the Committee's efficiency, speed, and digital progression and to continue implementing an updated Digital Governance Strategy. This strategy will oversee all digital technologies and data throughout the organisation, ensuring alignment with our vision for digital transformation and integrating advanced technologies such as AI, cloud computing, and custom-made digital engagement tools.

No transformation can be achieved without involving staff. For this reason, it is planned to continue investing in staff training and development, along with creating an appropriate internal structure within the organisation to foster, support and integrate innovative initiatives.

2027 will see the effects of the reallocation of staff and introduction of activity-based working for the staff who vacated the B-100 building in 2026 and the knock-on effect on other services. On the basis of this experience, further adjustments to the building policy will be made to ensure the most cost-effective use of the available building surface and ultimately of the building-related budget.

- **Increase impact and outreach:** The proposed increase in the communication budget would enable broader reach across both traditional and digital media platforms, facilitate the development of more engaging, high-quality content and, all in all, be geared towards ensuring the outreach of the EESC to all EU citizens. Enhanced funding would also support targeted campaigns, advanced technology for efficient communication, and strategic partnerships to amplify the EESC's initiatives and impact. Furthermore, the EESC plans to allocate part of its communication budget to combating disinformation in order to maintain public trust, support democratic stability, and comply with legal obligations regarding archiving, both in digital format and on paper (historical archives).

Considering the aforementioned priorities, the following pages provide detailed budget requests for 2027. These are grouped into three main areas: core activities, support services, and staff. Each category is quantified with figures presented in the corresponding budget chapters.

2.1 Financing of EESC core activities for 2027

2027 will be the year of the mid-term review for the EU institutions before the next elections in 2029 and the last year under the current MFF. Legislative activity will be in full swing, but mid-term adaptations to the priorities due to external circumstances are possible and, for this reason, the budget allocations for the EESC must be sufficient to support the essential level of activity of the members and the administration that supports their work.

The EESC's priority is to strengthen democracy by boosting citizen involvement and deepening engagement with stakeholders, both within the EU and in neighbouring areas. Although the enlargement of the EU does not yet have definite dates, preparing the civil society of neighbouring countries for the accession process to the European Union and promoting EU values are activities of vital importance. This is the aim of the Enlargement Candidate Members (ECM) initiative, launched at the beginning of 2024, very positively evaluated after 24 months and having been consolidated in 2026 with the creation of a specific budget line (item 1 0 0 9 – Actions for the preparation of civil society for EU accession). The EESC is also committed to advancing a balanced social agenda that supports economic competitiveness, highlighting initiatives such as the Blue Deal, the transition to a circular economy, and green industrial practices crucial for the EU's sustainability. It stresses the importance of evidence-based policymaking to ensure the impact of its opinions. The 2027 budget will be key to achieving these goals, significantly impacting the EU's ability to address current challenges and build a resilient future. Accordingly, a precise funding allocation is essential for the activities of EESC members and the associated institutional costs.

The budget chapters directly related to members' activities are Chapter 1 0 (Members and Delegates), Chapter 2 5 (Operational Activities), and Chapter 2 6 (Communication).

Regarding Chapter 1 0, the 9.31% increase is linked to meeting the political objectives anticipated for 2027, which is expected to be a year of intensive legislative activity and hence with a high number of referrals. Furthermore, members are very active in the European Semester and in civil society bodies advising on the implementation of trade agreements (Domestic Advisory Groups – DAGs). Given the closer trade ties between the EU and numerous third countries as a consequence of the geopolitical situation, the work of DAGs is expected to increase even further. Furthermore, given that 40% of the EESC members are new in the mandate that started in 2025, it is important for the new members to receive adequate training to allow them to exercise their mandate fully.

The total budget requested on item 1 0 0 4 (Travel and subsistence allowances, attendance at meetings and associated expenditure) amounts to EUR 24 685 172. Despite a nominal increase of 9.72%, the EESC's budget has decreased by 8.99% in real terms over the past ten years, exacerbated by the detrimental effect of high inflation.

Regarding Chapter 2 5, the request for a 4.89% increase compared to 2026 reflects the increase in activities, mainly in terms of events (EESC Youth Test, European Circular Economy Stakeholder Platform) and a higher number of reimbursed external participants at events to enhance the involvement and commitment of our stakeholders. However, the 4% increase in interpreting expenses accounts only partially for the inflationary impacts on contracts, particularly those concerning the provision of interpretation services by the European Commission (SCIC) and the European Parliament (EP), both covered under item 2 5 4 8. It should be noted that the price of an interpretation slot is expected to rise by 10.03%, reaching EUR 678. To prevent a greater increase, the estimated number of interpreting slots was revised downwards, exposing the EESC to a potential risk of not being able to meet all interpretation requests. However, the provision of interpretation services is vital for the functioning of the institution and, despite efforts to optimise costs, such an increase in service expenses threatens the fundamental principle of multilingualism.

Interpretation services are primarily provided by officials and agents of the European Commission and the European Parliament, who are subject to the salary regime of the European public service. The cost of the interpretation slot increases in direct correlation with salaries in the European public service.

As the EESC depends on interpretation services from the European Commission and the European Parliament, it faces a challenging situation: while the increase in interpretation expenses is capped at 2%, the cost of these services is directly linked to salary adjustments in the European public service, which exceed this limit.

As a result, the budget request for interpretation services was already reduced internally by EUR 598 652 in the current exercise (total requested increase of 4% only), knowing that this choice will make it challenging to ensure broad multilingualism in all meetings.

The requests under Chapter 2 6 are consistent with the urgent need to increase the institution's communication activities and outreach. The request for an increase of 7.67% is already the result of reprioritisation between new and old activities in order to reconcile the need for additional funds with budget constraints. The relaunch of the Civil Society Prize is the focus under 'Communication'. Additional activities include improving EESC websites and managing increased hosting costs on European Commission servers. It should be noted that in the field of communication, the EESC has very tight budgetary margins and needs to further expand its outreach to comply with its recently adopted Communication Strategy.

2.2 Financing of EESC support services

The budget chapters directly related to the financing of support services are Chapter 2 0 (Buildings and Associated Costs), Chapter 2 1 (Data Processing, Equipment and Furniture) and Chapter 2 3 (Current Administrative Expenditure). The remaining chapters directly related to staff are explained in the next section of this document.

Considering the challenges for the 2027 budget, the EESC aims to direct its initiatives towards strategic transformations in information technology.

The vacating of the B-100 building provides an opportunity to provide additional financial flexibility within Article 2 0 0. Rent savings will be allocated to essential 2027 building investments, with a focus on addressing

equipment obsolescence and improving energy efficiency and environmental performance. Nevertheless, even with these necessary renovation measures, Article 2 0 0 appropriations show an overall decrease of 0.32%.

Digital transformation is crucial for an administration like the EESC, which provides support to members from 27 EU countries. Calibrated investments in innovation and information technologies aim to streamline processes, enhance efficiency and reduce operational costs in the medium and long term. This also improves service delivery to members, allowing them to fulfil their mandate in a way that permits more prompt responses to consultation requests from other institutions.

It should be noted that 2027 will see consolidation of the trend of increasingly using software developed by the European Commission's IT services. Indeed, the acquisition of the ARES software system is planned (along with the resulting discontinuation of the development of the administrative workflow software system called Adonis), the transition from ABAC to SUMMA, and the modernisation of Sysper in preparation for the shift to the new HRT platform. This approach demonstrates how the EESC is determined to seek synergies and economies of scale in a strategic sector like information technology.

Nevertheless, the EESC still suffers from a backlog of investments in IT, which are partially compensated via the mopping-up exercise at the end of the year. The budget allocated to IT currently amounts to around 5% of the total budget, compared with approximately 8% in other institutions.

The suggested increase of 18.43% under Chapter 2 1 (Data Processing, Equipment and Furniture) clearly indicates the need to invest in a sector that is crucial for the institution's operations and efficiency.

In order to comply with the obligations under the EU Cybersecurity Regulation, it is suggested to make a one-off investment in cybersecurity: the 2027 budget request proposes a joint approach with the CoR to cover system and application upgrades, advanced cybersecurity tooling and making use of additional CERT-EU services. The EESC would contribute an amount of EUR 1 350 082 to items 2 1 0 0 and 2 1 0 2. With this investment in cybersecurity, the increase under Chapter 21 would be increased to 18.43%.

In relation to Chapter 2 3, the increase of 10.64% is driven by the need to offset the EESC's CO₂ emissions.

2.3 Staff

Constraints on staff resources remain very high. The last time the EESC was granted one administrator (AD) post was in the 2025 budgetary process in order to specifically cover needs in cybersecurity, similar to other EU institutions.

Between 2013 and 2026, the EESC has undergone the largest staff reduction among EU institutions (-7.7%). Combined with a growing number of priorities and politically mandated initiatives – such as the Enlargement Candidate Members initiative and the Youth Test – these ongoing resource constraints significantly reduced budgetary margins in 2025. This downward trend is expected to continue into 2026 and 2027.

The draft estimates for 2027 currently include an increase of two administrator (AD) and two assistant (AST) positions to meet specific needs, fully in line with the priorities previously outlined. More specifically, the requests focus on:

- One additional post (AD5) in Directorate E for a data analyst for financial and budgetary data, who will collect and harmonise information from multiple sources, ensure data quality, and build consistent datasets that enable patterns, trends and correlations to be detected;
- One additional AST3 post in communication (Directorate D) to enhance social media and digital online communication;
- One additional AST 3 post in DIIT to specifically support cybersecurity (post already requested in 2025 and 2026);
- One additional AD 7 temporary post for the medical service. The doctor was previously recruited under Article 123 of the CEOS (special advisor position), and she is currently on an "extraordinary dotation" post TA 2b (grade AD7). This aligns with the current practice of other institutions and allows the EESC

to be competitive as an employer for this highly specialised position. The request can be considered as budget-neutral, as the credit requests on line 1400-CS are reduced respectively.

The draft estimates for 2027 also include the request to convert two AST 6 posts into AD 6, one in the Budget Unit in Directorate E, and the other in the Recovery Management and Planning Sector in Directorate A, as part of the certification procedure.

The seriousness and consistency in the request for additional human resources must be highlighted. The staff reductions since 2013 disproportionately affect smaller administrations such as the EESC owing to their limited workforce and the critical role held by each employee. In such settings, reductions quickly lead to significant service gaps as employees often carry out multiple essential functions. Larger organisations, with more specialised roles, can manage these reductions more effectively. Moreover, the challenges of recruiting and training new staff, along with increased workloads for remaining employees, significantly impact efficiency within the EESC.

For these reasons, it is considered appropriate to request the budgetary authority to authorise a modest and measured increase in staff starting from 2027.

The impact on the budget of staff-related expenses is set out in Article 1 2 0 (remuneration and other entitlements) and Article 1 4 0 (Other staff and external persons).

3 CONCLUDING REMARKS

The total budget requested for 2027 amounts to **EUR 187 651 416**. Despite a nominal increase of 4.47%, the EESC’s budget has undergone a reduction in real terms over the past few years, exacerbated by the detrimental effect of high inflation.

The calibrated budget requests for 2027 reflect the unique budgetary challenges faced by a small institution whose mission is unique – to coordinate the voice of civil society at the service of the EU institutions. The 2% budget cap on non-salary expenses is not sustainable for consecutive years and severely penalises administrations with no room for manoeuvre, such as the EESC. For this reason, the 2027 Draft Budget represents an appeal to the budgetary authority to allocate a very modest portion of the administrative budget to supporting and strengthening the role and impact of organised civil society within the EU decision-making process.

2027 appropriations	2026 appropriations	2025 out-turn
100 698 000	98 880 971	91 577 795,47

Remarks

This appropriation is mainly intended to cover, for officials and temporary staff holding a post provided for in the establishment plan:

- salaries, allowances and payments related to salaries,
- insurance against sickness, accidents and occupational disease and other social security charges,
- the European Economic and Social Committee's contribution to the Joint Sickness Insurance Scheme,
- flat-rate overtime allowances,
- other allowances and grants, including parental or family leave allowance,
- payment of travel expenses for officials or temporary staff, their spouses and dependants from their place of employment to their place of origin,
- the impact of salary weightings applicable to remuneration and to the part of emoluments transferred to a country other than the country of employment,
- unemployment insurance for temporary staff and payments by the Committee to temporary staff in order to constitute or maintain their pension rights in their countries of origin,
- the severance payment of a probationer dismissed on grounds of manifest incompetence,
- the payment in respect of the termination by the Committee of the contract of a temporary staff member,
- effects of updates of remuneration during the year,
- the possible contribution, in line with budget availabilities, to infrastructure and ergonomic costs for staff working remotely in accordance with the Committee's decision on working arrangements.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Legal basis

Staff Regulations of Officials of the European Union.

Conditions of Employment of Other Servants of the European Union.

Remarks

This appropriation is intended to cover the following expenditure:

- the remuneration of other staff including auxiliary, contract and local staff and special advisers (within the meaning of the Conditions of Employment of Other Servants of the European Union), the employer's contribution to the various social security schemes, and the impact of salary weightings applicable to the remuneration of these staff or the termination of contract allowance,
- fees of medical and paramedical staff paid under the arrangements for the provision of services and, in special cases, the employment of temporary agency staff,
- the remuneration and fees of conference operators and multimedia editors used during times of excessive workload or in special cases,
- flat-rate overtime allowances,
- the payment of overtime in accordance with Article 56 of the Staff Regulations and Annex VI thereto,
- other allowances and grants, including the parental or family leave allowance,
- the payment in respect of the termination by the European Economic and Social Committee of a staff member's contract,
- effects of updates of remuneration during the year,
- the payment of accidental death insurance premiums,

- fees for a special advisor for the Audit Committee under the arrangements for the provision of services,
- the possible contribution, in line with budget availabilities, to infrastructure and ergonomic costs for other staff working remotely in accordance with the European Economic and Social Committee's decision on working arrangements.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

- installation and resettlement allowances and removal expenses due to staff obliged to change their place of residence on taking up duty, on transfer to a new place of employment and on finally leaving the European Economic and Social Committee and resettling elsewhere,
- the daily subsistence allowance for staff who furnish evidence that they must change their place of residence on taking up duty or transferring to a new place of employment,
- the difference between the contributions paid by staff to a Member State pension scheme and those paid to the Union scheme in the event of redefinition of a contract,
- effects of updates of remuneration during the year.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Legal basis

Staff Regulations of Officials of the European Union.

Conditions of Employment of Other Servants of the European Union.

Article 1 4 2 — External services

Item 1 4 2 0 — Supplementary services for the translation service and translation and outsourcing-related tools

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
1 057 100	1 012 116	887 254,40

Remarks

This appropriation is intended to cover expenditure on work carried out by external translation contractors and other outsourced translation-related services, as well as on all translation and outsourcing-related tools.

It also covers expenditure on any work entrusted to the Translation Centre for the bodies of the European Union and all interinstitutional cooperation activities in the language area.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Item 1 4 2 2 — External advice on legislative work

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
744 405	702 270	638 500,—

Remarks

This appropriation is intended to cover payments for external advice on the European Economic and Social Committee's legislative work under the current rules on reimbursement of transport costs and travel and meeting allowances.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Item 1 4 2 4 — Interinstitutional cooperation and external services in the field of personnel management

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
126 222	110 000	131 608,98

Remarks

This appropriation is intended to cover all interinstitutional cooperation activities in the field of personnel management.

It is also intended to cover all external services in the same field.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Article 1 6 1 — Expenditure relating to staff management

Item 1 6 1 0 — Expenditure on recruitment

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
54 353	56 000	19 114,72

Remarks

This appropriation is intended to cover:

- expenditure on organising the competitions provided for in Article 3 of Decision 2002/621/EC and travel and subsistence expenses for applicants called for interviews and medical examinations,
- the costs of organising procedures for selecting temporary, contract and local staff,
- the payment of consultant services for the selection of management staff (assessment centres),
- the payment of accidental death insurance premiums.

In cases duly justified by operational needs and after consultation of the European Personnel Selection Office, the European Economic and Social Committee may use some of these appropriations to organise its own competitions.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Legal basis

Staff Regulations of Officials of the European Union, and in particular Articles 27 to 31 and 33 thereof and Annex III thereto.

Decision 2002/620/EC of the European Parliament, the Council, the Commission, the Court of Justice, the Court of Auditors, the Economic and Social Committee, the Committee of the Regions and the European Ombudsman of 25 July 2002 establishing a European Communities Personnel Selection Office (OJ L 197, 26.7.2002, p. 53, ELI: <http://data.europa.eu/eli/dec/2002/620/oj>).

Decision 2002/621/EC of the Secretaries-General of the European Parliament, the Council and the Commission, the Registrar of the Court of Justice, the Secretaries-General of the Court of Auditors, the Economic and Social Committee and the Committee of the Regions, and the Representative of the European Ombudsman of 25 July 2002 on the organisation and operation of the European Communities Personnel Selection Office (OJ L 197, 26.7.2002, p. 56, ELI: <http://data.europa.eu/eli/dec/2002/621/oj>).

Item 1 6 1 2 — Further training

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
618 923	606 787	638 451,21

Remarks

This appropriation is intended to cover:

- the organisation of training and retraining courses as well as language courses for staff, on an interinstitutional basis. Some of the appropriations may be used in duly justified cases to cover the organisation of courses within the European Economic and Social Committee,
- expenditure relating to the purchase or production of teaching materials and to the performance of specific studies by specialists for devising and implementing training programmes,
- professional training courses which raise awareness about matters concerning people with disabilities and training measures in connection with equal opportunities and career advice, with particular reference to skill profiles,
- staff mission costs related to training,
- the costs of services requested from external contractors that are consultants in the field of human resources and finances.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Legal basis

Staff Regulations of Officials of the European Union, and in particular Article 24a thereof.

Conditions of Employment of Other Servants of the European Union.

Article 1 6 2 — Missions

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
452 711	412 010	431 300,—

Remarks

This appropriation is intended to cover transport costs, the payment of daily subsistence allowances and incidental or exceptional expenses incurred on mission.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Legal basis

Staff Regulations of Officials of the European Union, and in particular Article 71 thereof and Articles 11, 12 and 13 of Annex VII thereto.

Conditions of Employment of Other Servants of the European Union.

Article 1 6 3 — Activities relating to all persons working with the institution

Item 1 6 3 0 — Social welfare

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
81 514	58 000	60 040,—

Remarks

This appropriation is intended to cover:

- as part of an interinstitutional policy to assist people with disabilities in the following categories:
 - officials and temporary staff in active employment,
 - spouses of officials and temporary staff in active employment,
 - all dependent children within the meaning of the Staff Regulations,
- the reimbursement, to the extent permitted by the budget and after national entitlements in the country of residence or the country of origin have been exhausted, of expenses (other than medical expenses) recognised as necessary, resulting from the disability, supported by documentary evidence and not covered by the Joint Sickness Insurance Scheme,
- action taken in respect of officials and other servants in particularly difficult situations,
- the provision of services of a medical or social nature (such as home help, care for sick children, psychological counselling or mediation),
- incidental expenditure in the Welfare Service.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Legal basis

Staff Regulations of Officials of the European Union, and in particular Article 9(3), third subparagraph, and Article 76 thereof.

Item 1 6 3 2 — Social contacts between members of staff and other social measures

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
203 560	187 000	168 013,21

Remarks

This appropriation is intended to encourage and provide financial backing for schemes to promote social contact between staff of the European Economic and Social Committee and to develop a sense of well-being at work.

It also covers the provision of grants to the Staff Committee so that the Staff Committee can participate in the management and supervision of social bodies such as staff clubs, sports associations, cultural activities or hobbies.

This appropriation is also intended to provide financial support for measures of a social nature adopted by the European Economic and Social Committee in close collaboration with the Staff Committee (Article 1e of the Staff Regulations).

It also covers the European Economic and Social Committee's support towards social, sporting, educational and cultural activities.

This appropriation also covers the implementation of a staff transport plan to encourage the use of public transport, cut private car use and reduce the carbon footprint.

This appropriation also includes potential costs for administrative enquiries in the framework of Article 86 of the Staff Regulations and Annex IX thereto.

Item 1 6 3 4 — Medical service

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
116 628	108 400	154 174,02

Remarks

This appropriation is intended to cover the operating costs of the medical service, including the purchase of materials and pharmaceutical products, expenditure on preventive medical check-ups, expenditure arising from the operation of the Invalidity Committee and expenditure on services provided by outside medical specialists deemed necessary by the medical officers.

It also covers expenditure involving the purchase of certain work tools deemed necessary on medical grounds, including expenditure for professional liability insurance for medical service staff, membership fees for the medical staff in medical professional and scientific associations deemed necessary for the continuity and quality of the service and fees and costs linked to medical journals, scientific literature, scientific internet sites, medical conferences, specific professional training courses and specific medical IT tools not specifically provided for under another budget item.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Legal basis

Staff Regulations of Officials of the European Union, and in particular Article 59 thereof and Article 8 of Annex II thereto.

Item 1 6 3 6 — Restaurants and canteens

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
p.m.	p.m.	0,—

Remarks

This appropriation is intended to cover restaurant operating expenditure.

Item 1 6 3 8 — Early Childhood Centre and approved day nurseries

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
610 000	731 110	520 000,—

Remarks

This appropriation is intended to cover the contributions of the European Economic and Social Committee to the costs of the Union nursery centre and other day nurseries and after-school centres.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation from parental contributions is estimated at EUR 1 000.

Article 1 6 4 — Contribution to accredited European Schools

Item 1 6 4 0 — Contribution to accredited Type II European Schools

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
p.m.	p.m.	0,—

Remarks

This appropriation is intended to cover the European Economic and Social Committee's contribution to the Type II European Schools accredited by the Board of Governors of the European Schools or the reimbursement to the Commission of the contribution to the Type II European Schools accredited by the Board of Governors of the European Schools paid by the Commission in the name and on behalf of the European Economic and Social Committee and based on the Mandate and Service agreement signed with the Commission. It also covers the cost for children of the European Economic and Social Committee's staff enrolled in a Type II European School.

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
57 966	671 843	940 193,65

Remarks

This appropriation is intended to cover rent on buildings and rental charges for meetings held in buildings that are not occupied permanently.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Item 2 0 0 1 — Annual lease payments and similar expenditure

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
16 951 570	16 714 273	16 180 250,—

Remarks

This appropriation is intended to cover annual lease payments and other similar expenditure incurred by the European Economic and Social Committee in respect of its lease/purchase obligations.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Item 2 0 0 3 — Purchase of premises

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
p.m.	p.m.	0,—

Remarks

This appropriation is intended to cover the purchase of premises. Subsidies for land and its servicing will be dealt with in accordance with the Financial Regulation.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Item 2 0 0 5 — Construction of buildings

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
p.m.	p.m.	0,—

Remarks

This item is intended to accommodate a possible appropriation for the construction of buildings.

Item 2 0 0 7 — Fitting-out of premises

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
487 140	526 717	2 249 403,74

Remarks

This appropriation is intended to cover the performance of fitting-out work, including renovation (e.g. to reduce energy consumption under the Eco-Management and Audit Scheme (EMAS)) and specific work such as cabling and security and restaurant-related work, as well as other expenditure directly connected with that work, in particular architects' or engineers' fees.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Item 2 0 0 8 — Other expenditure on buildings

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
547 298	536 303	533 435,46

Remarks

This appropriation is intended to cover:

- expenditure on buildings not specifically provided for in the other budget lines in this chapter, in particular engineering and architectural consultancy services in connection with projects on the fitting-out of premises and legal fees in connection with the ‘option to buy’ for buildings,
- EMAS consultancy services,
- other studies for building projects.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Item 2 0 0 9 — Provisional appropriation to cover the institution’s property investments

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
p.m.	p.m.	0,—

Remarks

This appropriation is intended to cover any property investments made by the European Economic and Social Committee.

It is purely provisional and may be used only after its transfer to other headings in accordance with the Financial Regulation.

Article 2 0 2 — Other expenditure on buildings

Item 2 0 2 2 — Maintenance and cleaning

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
3 375 042	3 559 773	3 833 129,55

Remarks

This appropriation is intended to cover the cost of maintenance and cleaning, including maintaining premises, lifts, heating and air-conditioning systems and fire doors, as well as rat extermination, repainting and repair work, and maintaining the external appearance of buildings and their environment, including the cost of studies, analyses, authorisations, compliance with EMAS standards and controls.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 5 000.

Item 2 0 2 4 — Energy consumption

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
824 048	800 000	774 619,—

Remarks

This appropriation is intended to cover, in particular, water, gas and electricity costs and other energy costs.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Item 2 0 2 6 — Security and surveillance

2027 appropriations	2026 appropriations	2025 out-turn
1 376 831	1 369 999	1 131 410,66

Remarks

This appropriation is intended to cover wired and wireless telecommunication subscriptions and charges (fixed-line and mobile telephony, television), as well as costs incurred in connection with data transmission networks and telematic services, including an allowance for mobile telephony costs for a limited number of Members of the European Economic and Social Committee. It also covers the co-financing of equipment for Members and delegates enabling them to receive the documents of the Committee electronically, including any costs associated with terminal equipment.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Article 2 1 2 — Furniture

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
172 871	181 137	74 253,95

Remarks

This appropriation is intended to cover the purchase, hire, maintenance and repair of furniture, including the purchase of ergonomic furniture, and the replacement of worn-out and broken furniture.

In connection with works of art, it is also intended to cover both the cost of acquiring and purchasing specific material and the current expenditure relating thereto, including framing, restoration, cleaning, insurance and ad hoc transport costs.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Article 2 1 4 — Technical equipment and installations

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
1 232 605	1 366 333	1 467 167,89

Remarks

This appropriation is intended to cover the purchase, hire, maintenance and repair of fixed and mobile technical equipment and installations, in particular in the areas of publishing, archiving, security, canteens, buildings, telephone services, conference rooms and the audiovisual sector.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Article 2 1 6 — Vehicles

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
85 400	70 000	71 608,75

Remarks

This appropriation is intended to cover the purchase, maintenance, use and repair of vehicles (fleet of cars and bicycles) and the hire of cars, taxis, coaches and lorries, with or without drivers, including the necessary insurance cover.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

CHAPTER 2 3 — CURRENT ADMINISTRATIVE EXPENDITURE

Figures

Title Chapter Article Item	Heading	MFF	2027 appropriations	2026 appropriations	2025 out-turn	2025/2027

	Chapter 2 3 — Total		481 293	435 018	323 428,81	67,20 %

Article 2 3 0 — Stationery, office supplies and miscellaneous consumables

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
117 773	125 248	102 544,34

Remarks

This appropriation is intended to cover the cost of purchasing paper, envelopes, office supplies and products required by the printing and duplicating shops, and the cost of outside printing work.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Article 2 3 1 — Financial charges

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
4 000	4 000	3 000,—

Remarks

This appropriation is intended to cover bank charges (commission, agios and miscellaneous charges) and other financial charges, including ancillary costs for the financing of buildings.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Article 2 3 2 — Legal costs and damages

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
100 000	100 000	39 900,—

Remarks

This appropriation is intended to cover:

- all costs deriving from the European Economic and Social Committee's involvement in cases before Union and national courts, the cost of legal services, the purchase of legal works and equipment, and any other legal, court or out-of-court expenses to which the Legal Service contributes,
- damages, interest and any related debts within the meaning of the Financial Regulation.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Article 2 3 6 — Postage on correspondence and delivery charges

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
39 200	33 500	36 563,67

Remarks

This appropriation is intended to cover charges for postage, processing and delivery by the postal services or private delivery firms.

Article 2 3 8 — Removal costs and other administrative expenditure

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
179 890	172 270	141 420,80

Remarks

This appropriation is intended to cover:

- all removal and handling expenses and those incurred by using removal firms or interim handling agents,
- insurance not specifically provided for in another item,
- the purchase and maintenance of uniforms for ushers, drivers and removal personnel, medical services and various technical services,
- miscellaneous operating expenses not specifically provided for in another item.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Article 2 3 9 — Environmental support

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
40 430	p.m.	0,—

Remarks

This appropriation is intended to cover expenditure related to environmental support, including EMAS activities aimed at improving the environmental performance of the European Economic and Social Committee as well as the promotion of those activities, and to the Committee's carbon offsetting scheme.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

CHAPTER 2 5 — OPERATIONAL ACTIVITIES

Figures

Article 2 5 4 — Meetings, conferences, congresses, seminars and other events

Item 2 5 4 0 — Miscellaneous expenditure on internal meetings

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
272 700	249 700	217 192,26

Remarks

This appropriation is intended to cover:

- the cost of drinks and, occasionally, of snacks and working meals, at internal meetings,
- miscellaneous protocol expenditure (e.g. flowers and flower wreaths for wreath laying).

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Item 2 5 4 2 — Expenditure on the organisation of and participation in hearings and other events

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
719 500	658 500	562 311,93

Remarks

This appropriation is intended to cover expenses, including representation expenses as well as the cost of the organisation of external participation, related to: (a) events organised by the European Economic and Social Committee, (b) overall contributions where the event is co-organised with third parties, and (c) expenses connected with contracting out the organisation or part of the organisation of an event.

It also covers expenditure incurred as a result of: (a) visits to the Committee by delegations from socio-professional interest groups, (b) the participation of the Committee in the activities of the International Association of Economic and Social Councils and Similar Institutions, and (c) the activities of the Association of Former Members of the Committee.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Item 2 5 4 4 — Costs of organising the work of the Consultative Commission on Industrial Change (CCMI)

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
15 000	10 000	10 547,28

Remarks

This appropriation is intended to cover the operating expenses of the Consultative Commission on Industrial Change (CCMI), excluding the travel expenses and allowances for Members of the European Economic and Social Committee and delegates of the CCMI.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Item 2 5 4 6 — Representation expenses

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
90 000	60 000	54 193,17

Remarks

This appropriation is intended to cover expenses related to the obligations of the European Economic and Social Committee regarding representation.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Item 2 5 4 8 — Interpreting

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
7 820 000	8 000 000	7 456 471,80

Remarks

This appropriation is intended to cover expenditure for the services of interpreters (either freelance or made available by another institution) provided to the European Economic and Social Committee during face-to-face, hybrid or virtual meetings. Such expenditure includes their fees, travel expenses and subsistence allowances, and, with regard to hybrid and virtual meetings, the use of the platform installed in the Committee's conference rooms to allow for remote simultaneous interpretation.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

CHAPTER 2 6 — COMMUNICATION, PUBLICATIONS AND ACQUISITION OF DOCUMENTATION

Figures

Title Chapter Article Item	Heading	MFF	2027 appropriations	2026 appropriations	2025 out-turn	2025/2027

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
900 000	881 790	1 032 926,09

Remarks

This appropriation is intended to cover the European Economic and Social Committee's communication and information expenses, whether relating to the objectives and activities of the Committee, information activities aimed at the general public or socio-occupational organisations, media coverage of conferences, congresses and seminars, or the organisation and media coverage of major public events, cultural initiatives or any other of the Committee's various events, including the organised civil society prize. It also covers all materials, services, consumables and supplies connected with these events. This appropriation is also intended to cover the costs linked to increasing the outreach and follow-up of the Committee's activities and opinions.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Item 2 6 0 2 — Publishing and promotion of publications

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
779 000	730 000	983 521,24

Remarks

This appropriation is intended to cover the European Economic and Social Committee's publication costs on all media.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Item 2 6 0 4 — Official Journal

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
p.m.	p.m.	0,—

Remarks

This appropriation is intended to cover printing expenses for publications in the *Official Journal of the European Union*, as well as postage and associated costs.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Article 2 6 2 — Documentation, digitisation and studies

Item 2 6 2 0 — Foresight studies, general studies and research

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
300 000	300 000	289 220,—

Remarks

This appropriation is intended to cover the cost of hearings of experts in specific fields, as well as foresight studies and general studies contracted out to experts and research institutes.

Item 2 6 2 2 — Documentation and information resources

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
188 250	185 880	215 974,12

Remarks

This appropriation is intended to cover:

- the expansion and renewal of the general reference section and other related publications and the updating of the library's collection,
- subscriptions to newspapers, periodicals, information agencies, their publications and online services, including copyright fees for the copying and distribution in print or electronic form of these publications, and service contracts for press reviews and cuttings,
- subscriptions or service contracts for the provision of summaries and analyses of the content of periodicals or the storage on optical media of articles extracted from these periodicals,
- the costs of using external digital, documentary and statistical databases, excluding information technology equipment and telecommunication costs,
- costs arising from obligations undertaken by the European Economic and Social Committee in the framework of international or interinstitutional cooperation,
- the purchase or hire of special software and equipment, including electric, electronic and IT library, documentation and multimedia equipment and systems, as well as external services for the acquisition, development, installation, use and maintenance of this equipment and these systems,
- the cost of services connected with the activities of the library, including those provided for its users (searches, analyses), the quality management system, etc.,
- binding and conservation materials and work for the library, documentation service and multimedia resource centre,
- the cost, including materials, of internal publications (brochures, studies, etc.) and communication (newsletters, videos, CD-ROMs, etc.),
- the purchase of dictionaries, glossaries and other works for the language service.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

Item 2 6 2 4 — Document management and digitisation

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
113 000	113 000	113 701,31

Remarks

This appropriation is intended to cover:

- the cost of binding documents and brochures,
- the cost of external archiving services, including archiving consultancy, archiving analysis and archive processing (stock-taking of archives, appraisal, sorting, filing, archive analysis, description and logistics services),
- the cost of digitisation services,
- the cost of software related to archives,
- the cost of electronic archives storage systems,
- the cost of archive preservation materials (supplies such as acid-free or low-lignin boxes, folders and other special materials) for paper, electronic and media formats (microfilm, disks, cassettes, etc.),
- costs arising from obligations undertaken by the European Economic and Social Committee in the framework of international or interinstitutional cooperation.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.
