

SECTION I — EUROPEAN PARLIAMENT

INTRODUCTION

The introduction to the budget request has been provided by each Institution together with the statement of estimate for its respective budget section. In line with Article 314§1 of the TFEU, which states that: '[...] each Institution shall [...] draw up estimates of its expenditure for the following financial year. The Commission shall consolidate these estimates in a draft budget, which may contain different estimates.', the Commission has exceptionally adjusted the estimates of all Institutions. It is thus possible that figures referred to in the introduction of a specific budget section are different from those integrated into the Draft Budget.

1 STRUCTURE

Section I of the General Budget is split in five operational Titles.

- Title 1 'Persons working with the Institution' covers salaries, remunerations and entitlements of Members and staff, as well as several common facilities for all people such as catering, social and medical services.
- Title 2 relates to buildings, furniture, IT and other equipment as well as other operating expenditure.
- Title 3 concerns missions, meetings, conferences, expertise, information and communication, including the mission of e.g. the 'Parlamentarium' and the 'European Parliament Liaison Offices'.
- Title 4 includes specific political missions of the Institution, such as the contribution to Political groups, European political parties and foundations, and parliamentary assistance.
- Title 5 covers the expenditure of the Authority for European Political Parties and Foundations and related costs, as foreseen by the regulatory framework.

2 PARLIAMENT'S ESTIMATES

Parliament's estimates for 2027 amount to EUR 2 656 435 753, which represents an increase of EUR 51 579 166 or +1.98 % over Parliament's 2026 budget.

The statutory financial obligations increase by EUR 32.6 million which corresponds to +1.97 % compared to the part of statutory financial obligations in 2026, whereas non-statutory expenditure increases by EUR 19 million, corresponding to +2 % compared to the part of non-statutory expenditure in 2026 Parliament's budget.

2.1 Statutory financial obligations

Approximately 64 % of Parliament's estimates correspond to statutory obligations of which salaries and remuneration are a major component. The currently forecasted salary indexations are as follows:

- +2.2 % on 1 July 2026
- +2.3 % on 1 July 2027.

These figures are expected to change according to the development of the underlying parameters.

No additional permanent or temporary posts are requested for 2027.

2.2 Non-statutory financial obligations

The remaining 36 % of Parliament's estimates is non-statutory expenditure. This part is divided into five main categories: buildings (27 %), IT and telecommunications (21 %), political structures (15 %), expenses related to staff including external linguistic services (15 %) and communication (13 %).

3 PARLIAMENT'S ADMINISTRATIVE PRIORITIES FOR 2027

3.1 Strengthening Parliament's core functions

Parliament's Bureau decided in September 2024 to create four DGs directly linked to the legislative and budgetary responsibilities of Parliament: (1) Economy, Transformation and Industry, (2) Cohesion, Agriculture and Social Policies, (3) Citizens' Rights, Justice and Institutional Affairs and (4) Budgetary Affairs, from the former DG for Internal Policies.

The new structure has been operational since January 2025 and internal resources have been gradually redeployed, as regards the number of allocated posts, the budgetary envelope for external staff and the budget for external expertise. The aim is to significantly enhance both the quality and the volume of expertise provided to Members in order to enhance their power of informed decision making. In the 2027 estimates, both the budgetary envelope for external staff, and the budget for external expertise of the four new DGs remain stable compared with 2026. This will enable an assessment of these DGs' budget execution in 2026, thus facilitating possible budgetary adjustments in 2028, ahead of the 2029 elections, when demand for expertise is expected to peak.

3.2 Administrative simplification

Simplification is a powerful tool for Parliament who is striving to enhance efficiency, reduce costs, enable a smarter resource allocation, reduce administrative burden and improve the overall service quality.

In parallel with the structural reforms undertaken within the Secretariat-General, an Action Plan on administrative simplification was issued in June 2025, setting out a comprehensive set of immediate and short-to medium-term measures. The Plan places particular emphasis on reducing the administrative burden borne by Members and on streamlining the management of their human resources.

Concrete measures include, inter alia, the simplification and harmonisation of procedures governing the management of both accredited parliamentary assistants and local assistants, as well as the rationalisation of provisions related to visitor groups and travel management. Beyond improving efficiency and user experience, several of these actions are expected to generate tangible savings and contribute to a more optimal allocation and use of Parliament's resources.

3.3 Digital transformation and cybersecurity

The 2027 IT budget is designed to further strengthen Parliament's digital infrastructure while ensuring a high level of cybersecurity and resilience.

Cybersecurity remains a central priority. Appropriations allocated to this area will be significantly increased, with the objective of reaching 10 % of the overall ICT budget in the near term. This reinforcement will enable the full implementation of the cyber maturity plan adopted by the Bureau in December 2025. In line with the EU Cybersecurity Regulation, which entered into force in early 2024, Parliament has already put in place a comprehensive risk management and governance framework, completed maturity assessments, fulfilled its reporting obligations to the Interinstitutional Cybersecurity Board, and filled all ICT Security Specialist posts created following the 2023 Bureau decision to strengthen cyber defence capacities. In 2027, efforts will focus on the finalisation and operational deployment of the maturity plan.

In parallel, Parliament is advancing a structured approach to Artificial Intelligence (AI) governance. The framework adopted in 2024 established an AI Governance Board, an inter-DG steering group and an AI Centre of Competence. Building on this, the AI Governance Board adopted, on 10 February 2026, a roadmap setting out concrete actions for the development of sustainable and ethically responsible AI, fully aligned with the Bureau's guiding principles.

Digital transformation continues to be a key priority. Investments will support the ongoing modernisation of legislative support tools, document management systems and process automation solutions, as well as the deployment of a new staff portal and a dedicated data platform. Further enhancements are foreseen for the Europarl website and visitor management applications, while cybersecurity will be reinforced through the implementation of the cyber action plan.

Finally, the migration of the SAP landscape to a European-hosted cloud environment (SAP RISE) is scheduled for completion by mid-2027. This transition will modernise contract management, enable the deployment of a new travel management tool for Members, and support the development of a digital platform for the communication of financial and social rights.

3.4 Building projects

After several decades of expansion driven by the progressive strengthening of Parliament's institutional powers, the focus is now shifting towards maximising the contribution of existing buildings to core parliamentary activities, within a context of constrained resources.

3.4.1 Strasbourg

On 11 December 2023, the Bureau approved works in the Chamber to improve accessibility, safety, and technical equipment. These works are being carried out gradually between 2024 and 2027 to minimise disruptions to the normal use of the space.

To support Parliament's core business, in 2027, it is also planned to create new facilities for Members in the PFLIMLIN building in Strasbourg.

3.4.2 Brussels

3.4.2.1 Parlamentarium

In line with the relevant Bureau decisions and regulatory standards, the Parlamentarium in Brussels requires upgrades linked to fire safety, accessibility and entrance security. Subject to endorsement by the political authorities, works could start in 2027.

3.4.2.2 SPAAK building renovation and related projects

On 11 December 2023, the Bureau approved the comprehensive environmental renovation project for the SPAAK building in Brussels. The Committee on Budgets subsequently endorsed the project at its meeting of 14 February 2024. The total budget for the renovation, covering the period 2027–2031 and an area of 84 000 m², is set at EUR 455 million, of which EUR 350 million is allocated to works and EUR 105 million to services.

The services component encompasses, inter alia, project control and performance monitoring, risk and quality management, advisory support on the integration of environmental and sustainability requirements, the development of the preliminary design, the verification of compliance with quality, safety and sustainability standards, and the delivery of the final technical design.

In 2027, the project will enter its operational phase, with renovation works to be carried out by the designated design-and-build contractor. The corresponding expenditure will be financed through loans in accordance with Article 272(6) of the Financial Regulation, complemented, where appropriate, by surpluses identified at Parliament level.

On 23 April 2025, the Committee on Budgets approved the conclusion of an 18-year usufruct contract for the MONTERRA building in Brussels. This building will provide the temporary office capacity required to vacate the SPAAK building during the renovation period and will allow for the termination of the existing usufruct contract for the KOHL building. For 2027, the appropriations entered in the budget cover exclusively the annual reimbursement of costs related to the fit-out works to be carried out by the owner.

3.4.3 Europa Experience

Two facilities are planned to open in 2027 (Bratislava and Munich). Seven Europa Experience centres are left to be implemented in Member State capitals (Bucharest, Lisbon, Madrid, Nicosia, Riga, Valletta and Vilnius).

On 31 March 2025, the Bureau endorsed a new concept aimed at optimising the use of the Europa Experience spaces, enhancing return on investment and increasing visitor numbers, while taking into account the diverse situations across Member States. In addition, a phased retrofitting programme will be implemented to adapt existing Europa Experience visitor centres to this new modular concept.

3.5 Green Parliament

Parliament has successfully maintained its EMAS certification since 2007. Its environmental management system constitutes a benchmark for other parliamentary institutions within the European Union and beyond. In addition, Parliament has progressively extended EMAS certification to several Liaison Offices in the Member States.

In the medium/long term, Parliament will need to adapt to increasingly stringent requirements, notably as regards buildings’ energy performance and the Union’s target of reducing net greenhouse gas emissions by 55 % by 2030.

In this context, the planned investments in infrastructure for the period 2025–2029 will support a broad range of energy efficiency and environmental renovation measures. These include, inter alia, the installation of heat pumps, energy recovery ventilation systems and photovoltaic panels, the optimisation of technical installations and local regulatory compliance, the replacement of conventional lighting with LED technology, the deployment of an efficient Building Management System, measures to compensate for on-site energy production, and the refurbishment of buildings in Brussels.

In 2027, Parliament will launch a procurement procedure for the acquisition of carbon credits on the voluntary offsetting market, with a view to offsetting its 2026 emissions.

Parliament also actively promotes the use of sustainable transport. Since June 2025, the rail offer for missions to Strasbourg during part-sessions has been reinforced through the addition of extra carriages to the charter train. Furthermore, since 2022, a financial incentive scheme has been in place for staff, providing reimbursement of up to 90 % of the cost of public transport season tickets, conditional upon limited access to car parking facilities.

Remarks

This appropriation is intended to cover the operating costs of the Medical Services, the Medical Leave Service, the Medical Preparedness and Crisis Management Unit, the Prevention and Well-Being at Work Unit and the Equality Inclusion and Diversity Unit in Brussels, Luxembourg and Strasbourg.

In the medical field, this includes in particular:

- medical check-ups and the purchase of materials and pharmaceutical products,
- expenditure on medical examinations, particularly in an occupational-medicine context, on pre-recruitment medical examinations, on periodic examinations and health screening in connection with security-related, safety-critical and specific-risk posts,
- medical expert reports and reports on ergonomic measures,
- expenditure arising from the operation of the Invalidity Committee and in connection with adjudications and expert opinions,
- expenditure on services provided by outside medical and paramedical specialists deemed necessary by the medical officers.

It also covers expenditure involving the purchase of certain work tools deemed necessary on medical grounds, together with expenditure on medical or paramedical service providers or personnel on short-term stand-in assignment.

In relation to disability management and support, this appropriation is intended to cover, as part of an interinstitutional policy to assist persons with a disability in the following categories:

- officials and other agents in active employment,
- spouses of officials and other agents in active employment,
- dependent children within the meaning of the Staff Regulations,
- orphans who have lost both parents and who are in receipt of an orphan's pension,
- the reimbursement, to the extent permitted by the budget and after national entitlements in the country of residence or the country of origin have been exhausted, of expenses (other than medical expenses) recognised as necessary, resulting from the disability, supported by documentary evidence and not covered by the Joint Sickness Insurance Scheme,
- other institutional and interinstitutional welfare measures for officials, other servants and retired staff,
- the financing of specific reasonable accommodation measures or expenditure on medical analyses and welfare assessments for officials and other servants with disabilities during recruitment procedures or requiring accommodation measures as a result of events during their career, and trainees with disabilities during selection procedures, in application of Article 1d of the Staff Regulations, in particular personal assistance at the workplace, including transport, or during missions.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 100.

Legal basis

- participation by the services responsible for Scientific and Technological Options Assessment (STOA) in the activities of European and international scientific bodies,
- the European Parliament's obligations under international and interinstitutional cooperation agreements, including the European Parliament's contribution to the costs of managing the Union's historical archives in accordance with Regulation (EEC, Euratom) No 354/83,
- the costs of the European Science-Media Hub, the operations of which are overseen by the European Parliament's Panel for the Future of Science and Technology (STOA), in enhancing the interface between the European Parliament, the scientific community and the media, in order specifically to promote networking, training and knowledge dissemination. This includes for example:

- organising activities and dealing with expenses (including travel expenses, accommodation and catering) in connection with invitations to journalists, stakeholders and other experts to cover the activities concerned,
- setting up and maintaining networks at the interface between the European Parliament, the scientific community and the media,
- organising seminars, conferences and training courses on current scientific and technological developments and issues and on the nature and effectiveness of science journalism,
- harnessing expert information and analysis from academia, the media and other sources in the field of science and technology for the benefit of policy-makers and citizens,
- making European Parliament research and other relevant material in the field of science and technology more widely available by written, audiovisual and other means,
- developing techniques and methods for increasing the ability to identify and disseminate trustworthy sources in the field of science and technology,
- supporting the installation, upgrading and use of state-of-the-art technical equipment and media facilities in support of such dialogue,
- developing closer cooperation and, more generally, links between the European Parliament, relevant media outlets and universities and research centres in this field, including through promotion in the media of the role and work of the European Science-Media Hub as well as its accessibility for citizens.

This appropriation may also be used to support dialogue between the European Parliament and the university community, the media, think tanks and citizens with regard to foresight work on the long-term trends to be addressed by European Union decision-makers, both in the field of science and, more broadly, through seminars, publications and other activities set out above.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 100.

Remarks

This appropriation is intended to cover the expenditure of the Authority for European Political Parties and European Political Foundations to ensure its full and independent operation.

It covers, in particular, the expenditure specific to the Authority's remit with regard to specialised professional training, mandate-related meetings and coordination with other Union bodies and national authorities, acquisition of tailor-made software and IT services, acquisition of expertise, consultancy services, including studies, and documentation, legal costs and damages, and publishing and information activities. It also covers expenditure to cover any invoicing by an institution in the event of an overrun as regards the volume or cost of goods or services made available to the Authority by institutions under service agreements pursuant to Article 6(4) et seq. of Regulation (EU, Euratom) No 1141/2014.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 416 160. That revenue includes, in particular, support for the operation of the Authority by institutions other than the European Parliament, pursuant to Article 6(6) of Regulation (EU, Euratom) No 1141/2014.

Legal basis

Regulation (EU, Euratom) No 1141/2014 of the European Parliament and of the Council of 22 October 2014 on the statute and funding of European political parties and European political foundations (OJ L 317, 4.11.2014, p. 1, ELI: <http://data.europa.eu/eli/reg/2014/1141/oj>), and in particular Article 6(1) and (7) thereof.
