

SECTION IV — COURT OF JUSTICE OF THE EUROPEAN UNION

INTRODUCTION

The introduction to the budget request has been provided by each Institution together with the statement of estimate for its respective budget section. In line with Article 314§1 of the TFEU, which states that: '[...] each Institution shall [...] draw up estimates of its expenditure for the following financial year. The Commission shall consolidate these estimates in a draft budget, which may contain different estimates.', the Commission has exceptionally adjusted the estimates of all Institutions. It is thus possible that figures referred to in the introduction of a specific budget section are different from those integrated into the Draft Budget.

1 INTRODUCTION

The purpose of this introduction is to give a brief description of the Court of Justice of the European Union ('the Court' or 'the Institution'), the context of this new financial year and the main elements of the Court's estimates of revenue and expenditure for the year 2027 ('the estimates for 2027').

Following this introductory section, Section 2 analyses the expenditure in the estimates for 2027.

1.1 The Court

Since the establishment of the Court in 1952, its mission has been to ensure that 'the law is observed in the interpretation and application' of the Treaties.

As part of this mission, the Court:

- reviews the legality of acts of the institutions of the European Union,
- ensures that Member States comply with the obligations arising from the Treaties, and
- interprets EU law at the request of the national courts and tribunals.

It thus constitutes the judicial authority of the European Union and, in cooperation with the courts and tribunals of the Member States, ensures the uniform application and interpretation of EU law.

The Court, which has its seat in Luxembourg, comprises two courts of law: the Court of Justice and the General Court (established in 1988). The Court of Justice is composed of 27 judges and 11 Advocates General. The General Court is composed of 54 judges, two from each Member State. The members of both courts are appointed by common accord of the governments of the Member States for six-year terms, following consultation of a committee charged with providing opinions on the suitability of applicants. A partial renewal of the composition of each court, which concerns half of the judges, takes place every three years.

As each Member State has its own language or languages and specific legal system, the Court is a multilingual institution. Its language regime has no equivalent in any other jurisdiction in the world, since the language of a case can be any of the official languages of the European Union. The Court is required, in fact, to ensure full multilingualism because of the need to communicate with the parties in the language of the case and to ensure the dissemination of its case-law in all the Member States.

It is important to bear in mind that, unlike the other EU institutions, which have the possibility of controlling their workload or setting negative priorities, or other supreme or higher courts, the courts of the Institution are unable to regulate the flow of cases brought before them. However, it is their responsibility to make every effort to remain in a position to deal with those cases at the required high level of quality and within a satisfactory time frame.

1.2 The General Context

As in previous years, the 2027 estimates are drawn up in a general context which remains difficult, uncertain and weighed down by international conflicts, with the European Union's economy expected to see very modest growth (1.4% in 2026 and 1.5% in 2027).

The year 2027 marks the end of the current multiannual financial framework (MFF), and the constraints associated with this framework apply in full. On the basis of these constraints, the Commission has provided the EU institutions with a series of guidelines for preparing their estimates for 2027, recommending a rigorous approach and asking them, in particular, in line with the MFF parameters, that they do not include requests for new posts and that they limit the increase in non-salary expenditure to a maximum of 2%.

As for the indexation parameters, the Commission estimates that the general price level in Luxembourg should increase by 1.7% in 2026 and by 1.9% in 2027. With regard to the adjustment of remuneration, the Commission's assumptions are as follows:

- + 2.2% from 1 July 2026 (12-month impact on the 2027 budget);
- + 2.3% from 1 July 2027 (6-month impact on the 2027 budget).

1.3 Guidelines for the estimates for 2027

The main elements of the estimates for 2027 are as follows:

- the need to cover unavoidable staff-related expenditure due to the application of the **salary adjustment** assumptions communicated by the Commission (see previous point) as well as certain provisions of the Staff Regulations of Officials of the European Union (in particular concerning advancement to a higher step and promotion). The change in expenditure related to these elements, amounting to approximately EUR 8 million, is the main factor in the change of Title 1 expenditure;
- **reduction in non-salary expenditure.** Expenditure of this nature not only complies with the Commission's instruction not to exceed a 2% increase, but shows a **significant reduction of 7.60%**, in particular as a result of the end of certain payments for building projects;
- **partial renewal of the composition of the Court of Justice in 2027**, the budgetary impact of which is offset by the confirmation in their duties of most of the Members of the General Court at the end of their term of office in the context of the partial renewal of the composition of that Court in 2025;
- **no requests for the creation of new posts**, in accordance with the instructions provided by the Commission. In order to be able to comply with this instruction, notwithstanding an increasing workload, the Court is considering carrying out a number of targeted redeployments and making greater use of new technological tools;
- proposal for a number of **upgradings of posts**, both in the Chambers of the Courts (temporary posts) and in the services (permanent posts). The upgradings for the Chambers are requested in order to ensure career progression for members of staff occupying temporary posts and to avoid bottlenecks in access to certain grades, as well as to bring the composition of the General Court's Chambers into line with the court's current needs. The purpose of the upgradings for the services is to bring the function groups and grades of certain posts into line with the increasingly complex tasks inherent in those posts, thereby avoiding additional requests for new posts;
- **very contained increase (2.28%) in appropriations linked to the employment of contract agents.** The total number of contract staff that the Court proposes to recruit in 2027 increases by 4 full-time equivalents (FTEs), in order to allow the launch of an inclusion project with the recruitment of 4 contract staff with disabilities;
- maintenance of **the standard abatement rate on salary appropriations at 2.5%**, to take account of the fact that the occupation rate of establishment plan posts is never 100% (the average occupancy rate of posts being around 97% in 2025).

1.4 Summary of the changes in appropriations in the estimates for 2027

The following table illustrates in both absolute and percentage terms – in the estimates for 2027 and compared to the respective level in 2026 – the changes in salary expenditure, expenditure for Members and non-salary expenditure respectively:

	2027	2026	Change in EUR	Change in %
Salary expenditure	384 273 000	374 299 633	9 973 367	2,66 %
Expenditure for Members of the institution	47 903 000	46 990 000	913 000	1,94 %
Non-salary expenditure	123 317 000	133 453 000	- 10 136 000	- 7,60 %
Total	555 493 000	554 742 633	750 367	0,14 %

2 ANALYSIS OF EXPENDITURE CONCERNING THE ESTIMATES FOR 2027

2.1 Analysis of the requests to develop the establishment plan

The Court presents some targeted requests for transforming and upgrading posts, as set out below. However, no new posts are requested.

2.1.1 *Upgrading of permanent posts in the framework of promotion policy*

Article 6(2) of the Staff Regulations guarantees that, for each institution, there are sufficient vacant posts in each grade on 1 January of the year to ensure the promotion of officials in accordance with the percentages laid down in the Staff Regulations (see Annex 1, Section B, and Article 9 of Annex XIII) for each grade, which are applied to the number of officials in active employment in the lower grade on 1 January of the previous year.

For the implementation of that provision of the Staff Regulations, the following upgradings should be made:

8 AD 11 to AD 12, 8 AD 10 to AD 11, 5 AD 6 to AD 7, 4 AD 5 to AD 6, 3 AST 2 to AST 3 and 9 AST 1 to AST 2.

The budgetary impact of these upgradings in 2027 is **EUR 226 000**.

It is to be noted that the abovementioned provisions of the Staff Regulations guarantee a level of availability of posts but in no way create an obligation to grant the corresponding number of promotions. Promotions can only be granted to officials who show sufficient merit.

2.1.2 *Upgrading of temporary posts in the Chambers of the two Courts*

In order to ensure career progression for staff holding temporary posts in the Chambers of the two courts of the Institution for the duration of the Members' term of office (six years and sometimes longer), it is necessary to make limited changes to the establishment plan to deal with bottlenecks in access to certain grades. In this context, it is proposed that the following upgradings be made:

5 AD 13 to AD 14, 12 AD 11 to AD 12, 12 AD 12 to AD 13, 5 AD 9 to AD 10.

The budgetary impact of these 34 upgradings in 2027 is **EUR 1 014 000**.

It is also proposed to upgrade one assistant post to the function group of administrator in each of the General Court's Chambers. Indeed, the increased legal and factual complexity of cases brought before the General Court has significantly increased the need for support in legal research and analysis within the Chambers, whilst advances in technology have made it possible to streamline certain administrative tasks. In that context, the transforming of certain assistant posts into positions of legal administrator makes it possible to bring the composition of Chambers into line with the current needs of the court, thereby strengthening its capacity to work in the face of increasingly diverse and complex litigation. For this purpose, the following upgradings are necessary:

27 AST 3 to AD 5, 27 AST 4 to AD 5.

The budgetary impact of these 54 upgradings in 2027 is **EUR 926 000**.

2.1.3 *Upgrading of permanent posts within the services*

Further upgradings, concerning permanent posts allocated to the Institution's services, are requested under the 2027 budget. These include the upgrading of 6 AST 3 posts to AD 5 posts within several services of the Institution. The purpose is to bring the posts into line with the ever-increasing level of skills required in all areas of the Court's administrative activity.

The budgetary impact of these six upgradings of permanent posts amounts to **EUR 133 000**.

2.1.4 *Other changes to the establishment plan*

In order to ensure the optimal use of the Institution's establishment plan, it is necessary to carry out certain budget-neutral transformations of permanent posts into temporary posts and vice versa, given the greater need for higher grades in temporary posts compared to permanent posts.

14 permanent posts transformed into temporary posts: 13 AD 13 and 1 AST 3.

14 temporary posts transformed into permanent posts: 2 AD 7, 2 AD 8, 9 AD 9, 1 AST-SC 5.

2.2 **Analysis of the changes in appropriations in the estimates for 2027**

2.2.1 *Preliminary observations and summary table of changes in appropriations*

In general terms, in the 2027 budget estimates, around 83.3% of the appropriations are allocated to expenditure in Title 1 'Persons working with the institution' (EUR 462.5 million) and approximately 16.7% to expenditure in Title 2 'Buildings, furniture, equipment and miscellaneous operating expenditure' (EUR 92.9 million).

The following table sets out the development in expenditure between 2026 and 2027.

2.2.2 *Explanatory notes on expenditure in Title 1*

As regards Title 1 'Persons working with the institution', the overall increase in expenditure is EUR 11 653 367, or + 2.58% compared to the same type of appropriations in the 2026 budget.

The table in **Annex I** sets out the changes in expenditure per budget line between 2026 and 2027 within Title 1, with an explanation of the main reasons for those changes.

2.2.3 *Explanatory notes on expenditure in Title 2*

As regards Title 2 'Buildings, furniture, equipment and miscellaneous operating expenditure', this expenditure shows a reduction for 2027 of EUR 10 903 000, or - 10.50% compared to the same type of appropriations in the 2026 budget.

The table in **Annex II** sets out the changes in expenditure per budget line between 2026 and 2027 within Title 2, with an explanation of the main reasons for those changes.

2.2.4 Explanatory notes on expenditure in Title 3

As regards Title 3 ‘Expenditure resulting from special functions carried out by the institution’, the amount requested for 2027 is EUR 57 000, which is unchanged from the 2026 budget.

3 AMENDMENT OF THE BUDGET REMARKS

The table in **Annex III** shows the changes to the budget remarks for 2027. In the part of the table containing the new remarks, the added words/phrases are in bold, and the deleted ones are in italics.

A single amendment to the budget remarks is proposed for the year 2027. It concerns item 1632, which is proposed to be renamed in order to be able to use it for forms of support to staff which, like those provided for in Article 24 of the Staff Regulations, are not strictly ‘social’.
