

SECTION VII — EUROPEAN COMMITTEE OF THE REGIONS

INTRODUCTION

The introduction to the budget request has been provided by each Institution together with the statement of estimate for its respective budget section. In line with Article 314§1 of the TFEU, which states that: '[...] each Institution shall [...] draw up estimates of its expenditure for the following financial year. The Commission shall consolidate these estimates in a draft budget, which may contain different estimates.', the Commission has exceptionally adjusted the estimates of all Institutions. It is thus possible that figures referred to in the introduction of a specific budget section are different from those integrated into the Draft Budget.

1 BACKGROUND

The European Committee of the Regions (CoR) is a **political assembly** comprising **329 elected representatives and 329 alternates from local and regional authorities across all EU countries**. Most CoR Members are affiliated with one of six political groups: EPP, PES, Renew Europe, ECR, EA, and The Greens & Progressives. The CoR's main mission is to shape EU policies and influence decision-making from a local and regional perspective. Notably, these authorities are responsible for implementing around 70% of European law. Collaboration among local and regional authorities within the CoR strengthens the quality of European legislation and deepens EU citizens' understanding of the Union, which serves approximately 450 million people.

The political activities and expertise of CoR Members, in both Brussels and their home constituencies, are vital assets to the assembly. They advance the political agenda of local and regional authorities within EU legislative work and initiatives. As established by the Treaty, **the CoR is an equal partner in the EU's multi-level governance system**, making it a unique reference point for all local and regional matters across the European Union.

CoR Members are deeply committed to **engaging with EU citizens** by organising dialogues whenever possible, often in collaboration with other EU institutions. This ongoing engagement not only supports the EU and its institutions but also facilitates discussions on political and critical issues from the citizens' perspective. Such efforts reflect the CoR's dedication to transparency and public involvement.

The CoR's primary function, as set out in the Treaties, is to improve law-making. It is therefore essential that local and regional representatives have a voice in shaping new EU legislation. The CoR also plays a key role in upholding the **principle of subsidiarity**. Closely linked to law-making is its second main objective: strengthening European democracy by narrowing the gap between the public and the European integration process. This mission involves engaging more than a million regional and local politicians in building a transparent and participatory Europe.

The CoR's current budget **does not reflect its pivotal role in the EU's democratic process** and political structure. For several years, the CoR has faced unprecedented budgetary pressures, resulting in structural deficits and a diminished capacity for the political work of its Members. These challenges are likely to persist, particularly given the structural underfunding anticipated to continue into 2026. Compounding this, **the CoR operates with 36% less budget than the European Economic and Social Committee (EESC)** under the current MFF, **despite having the exact same number of Members**. For an institution that the **Treaty on the Functioning of the European Union places on equal footing with the EESC, and whose Members are democratically elected representatives of local and regional authorities, this funding gap is simply unacceptable**.

It is therefore **critical that the financial situation of the CoR improves** to ensure its ability to fulfil institutional obligations to EU institutions is not compromised. The CoR and its Members require adequate

budgetary and human resources to effectively support EU institutions, with funding comparable to that of similar EU bodies. The urgency of improved funding cannot be overstated.

2 2027 BUDGET REQUEST

The preparation of the 2027 budget continues to be affected by the lasting consequences of the unprecedented inflation experienced between 2021 and early 2025. Although inflation is now receding, overall prices remain high. As a result, the purchasing power of the CoR's budget has declined significantly, with non-salary appropriations estimated to have dropped by 20% since 2021. This sustained loss has further intensified **structural underfunding** in critical areas, such as digital infrastructure, building maintenance, and communication.

Unfortunately, the 2026 budgetary process did not resolve these issues, resulting in continued structural deficits. Consequently, the 2027 budgetary process faces a particularly challenging starting point.

The guidelines issued by the EC Budget Commissioner for the 2027 budget estimates require an assumed maximum inflation rate of 2% for non-salary appropriations, consistent with the requests made in 2025 and 2026. However, this approach does not leave any room for at least partially correcting the existing structural underfinancing.

Following approval by the CoR's Bureau on 9 December 2025, the main elements of the CoR's budgetary strategic guidelines are as follows:

- (i) Ensure at least the **"status quo"** of political activities, taking into account formal inflation and salary indexation estimates provided to all Institutions by the European Commission;
- (ii) Reinforce **funding for CoR Members** and communication activities of CoR political groups;
- (iii) Expand the **Local Dialogues' programme** ;
- (iv) Enhance **Members' visibility** and increase the CoR's institutional and political impact;
- (v) Allocate necessary resources to support to the **joint EC-CoR's EU Local Councillors' Network** ;
- (vi) Strengthen **communication activities for CoR Members** ;
- (vii) Reinforce **CoR cybersecurity** with 1 AD5 post;
- (viii) Improve the **CoR's cloud development and data safety** ;
- (ix) Provide **funding for mandatory SLAs for new corporate document management and finance tools** (Ares, SUMMA, EdiT).

Compared to 2026, the CoR is requesting an **additional € 7.3 million (+ 5.4%)** in 2027 to **cover existing statutory and legal obligations, finance the 8 new projects listed above (ii-ix), and fund the significantly higher cost of buildings' security and surveillance due to new inter-institutional public procurement (€0.74 million)** . Main statutory and legal obligations encompass salary indexations, step increases, and career progression for staff, and the indexation of costs related to building leases and other mandatory maintenance expenditures.

The CoR continues to generate substantial synergies through **inter-institutional cooperation** at the administrative level, positioning itself as one of the EU's most advanced institutions in this regard. **Efficiency and cost-effectiveness** have improved through consolidated meetings, the introduction of modern video-conferencing tools for non-statutory meetings, participation in institutional calls for tenders, hybrid work arrangements for staff, administrative simplification, paperless policies, contract optimisation for catering, cleaning, and IT services, as well as investment in energy-saving initiatives and IT upgrades. Building on these advancements, two major strategic initiatives are underway: the "Mapping of CoR Resources" project, which aims to better align financial and human resources with institutional priorities, and the structural reorganisation of the Translation Directorate, which seeks to transform, modernise, and optimise its operations over time.

The CoR is proactively **seeking further savings through innovation**, launching pilot projects such as remote interpretation and interpretation via mobile phones for selected meetings, full machine translation of specific low-risk documents, wider adoption of MS 365 cloud operations, Copilot, and other innovative AI-driven tools to optimise processes. Integrating AI into additional workflows is expected to unlock further efficiency gains. Results from these pilot projects will be released incrementally and, if successful, could deliver substantial savings in the coming years.

The CoR has consistently achieved **excellent annual budget outturns** in recent years. Over the past three years, it has maintained an impressive **99.9% budget execution rate, the highest in its history**. This near-complete utilisation of the budget leaves no internal reserves, demonstrating strong financial management but also highlighting the need for additional resources, a point reinforced by the **EP 2023 and 2024 Discharge reports**.

After in-depth discussions and reviews at both administrative and political levels, the CoR is requesting a total DB 2027 of € **142,600,414**, representing a € **7.3 million (5.4%)** increase over the 2026 voted budget and **498 posts** in the establishment plan (**1 new specialised cybersecurity post**).

This budget increase covers, among others, the following new projects:

- Funding for CoR Members and communication activities of CoR political groups € 0.123 million
- Local Dialogues' programme € 0.1 million
- EU Local Councillor's Network € 0.5 million
- Members’ visibility to increase the CoR's institutional and political impact € 0.3 million
- Communication activities for CoR Members € 0.165 million
- 1 new AD5 permanent post (cybersecurity) as of July 2027 € 0.1 million
- Cloud development and data safety € 1 million
- Funding for mandatory SLAs for new corporate document management and finance tools (Ares, SUMMA, EdiT) € 0.2 million
- Security and surveillance of buildings € 0.74 million

It is important to highlight that the CoR has significantly increased its political activities in recent years, directly impacting its budget. While all CoR expenditure falls under Heading 7 (administrative spending), similar to the European Parliament, a substantial share of the budget supports non-administrative activities, particularly costs associated with Members and their political work. Despite this heightened activity, the CoR’s **2027 budget accounts for only about 1% of total Heading 7 expenditure** and just 0.07% of the overall EU budget.

Finally, the CoR began a new mandate in early 2025, leading to changes in the Presidency and leadership of several CoR bodies. This transition led to the adoption of new political priorities for the CoR’s 8th term (2025–2030). Historically, the first years of a new mandate see increased Member participation in meetings and events, which is expected to have a significant impact also on the 2027 budget.

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
513 000	500 000	687 512,—

Remarks

This nomenclature responds to new realities of organising events after the COVID-19 pandemic and to the Conference on the Future of Europe. In particular, there is the call for a permanent dialogue mechanism with Union citizens at all levels, which includes regional and local levels.

This appropriation is intended to cover expenses, including representation and logistical expenses, for:

- the harvesting of local dialogues held by regional and local politicians,
- exchange of best practice among local and regional politicians in relation to participatory processes for involving citizens in decision-making,
- further development of the Young Elected Politicians programme involving young leaders under 35 at regional and local levels, in cooperation with the other Union institutions and involving the Union-level political families,
- the organisation by the European Committee of the Regions of events, of general or specific nature, designed to promote its political and consultative works; such events take place either in Brussels or in decentralised locations, usually in partnerships with local and regional authorities, with their associations and with the other Union institutions,
- the participation of the Committee at congresses, conferences, colloquia, seminars or symposia organised by third parties (other Union institutions, local or regional authorities, their associations, etc.).

2027 appropriations	2026 appropriations	2025 out-turn
1 065 000	1 045 000	1 023 952,75

Remarks

This appropriation is intended to cover the costs for the production of web, social media, digital and printed content. It also covers costs related to measuring the impact of those communication actions.

This appropriation also covers, inter alia, the further digitisation of publications, improving the impact of content based on social media and web monitoring tools, maintaining and enhancing the website of the European Committee of the Regions as well as a number of innovative actions.

Item 2 6 0 3 — EU Councillors

Figures (Non-Differentiated appropriations)

2027 appropriations	2026 appropriations	2025 out-turn
100 000	50 000	219 928,17

Remarks

This appropriation is intended for the European Committee of the Regions' contribution to the EU Local Councillors Network. This was created at the end of 2024 through the merger of the 'Building Europe with Local Entities (BELE)' pilot project run by the European Commission and the Committee's network of regional and local councillors.

This 'EU' first branded network is the most ambitious joint project of the Union institutions for reaching out to elected representatives at regional and local levels. It is featured in the mission letters of all the European Commissioners as well as the political guidelines for the second term of office of Commission President von der Leyen.

This initiative has its origins in a European Parliament pilot project and the European Parliament will continue to be represented in the Steering Committee.

A programme involving local and regional politicians should be implemented by the European Committee of the Regions as the competent Union body and for the added value generated in terms of visibility and capacity of the project to connect and cluster CoR members and local elected politicians on the ground, working together to communicate Europe.
