

SECTION X — EUROPEAN EXTERNAL ACTION SERVICE

INTRODUCTION

The introduction to the budget request has been provided by each Institution together with the statement of estimate for its respective budget section. In line with Article 314§1 of the TFEU, which states that: '[...] each Institution shall [...] draw up estimates of its expenditure for the following financial year. The Commission shall consolidate these estimates in a draft budget, which may contain different estimates.', the Commission has exceptionally adjusted the estimates of all Institutions. It is thus possible that figures referred to in the introduction of a specific budget section are different from those integrated into the Draft Budget.

1 EXECUTIVE SUMMARY DB2027

Since its establishment in 2011, the European External Action Service (EEAS) has progressively strengthened its role as the diplomatic service of the European Union, implementing the EU's Common Foreign and Security Policy with the objective of promoting peace, stability, security and prosperity worldwide. Over time, the EEAS has consolidated its reputation as a credible and reliable international partner while enhancing the coherence, effectiveness and visibility of the EU's external action.

The EEAS continues to carry out its core mission of managing diplomatic relations and strategic partnerships with non-EU countries, in close cooperation with the foreign and defence ministries of the 27 Member States and with other EU institutions, notably the European Commission, the Council and the European Parliament. Through its network of 145 EU Delegations and offices worldwide, the EEAS contributes to a wide range of policy areas, including security and defence under the Common Security and Defence Policy, crisis response, climate diplomacy, mediation and peacebuilding, development cooperation, humanitarian action, and the promotion of human rights.

The EEAS draft budget for 2027 amounts to EUR 992.7 million, representing an increase of 4.7% compared to the 2026 budget. This increase primarily reflects the need to reinforce the EU's security and defence capacity in response to the evolving geopolitical environment, as well as to address structural underbudgeting in certain operational expenditure lines, particularly in the context of expected renewed high inflation worldwide.

A key component of the proposed increase is a core Security and Defence package, which includes the creation of 15 additional posts (10 Seconded National Experts and 5 contract agents). These reinforcements aim in particular to strengthen the EU Military Staff (notably the EU Cyber Defence Coordination Centre (CDCC), to address a critical operational gap in cyber defence), to enhance analysis, threats monitoring and strategic foresight (including through the Single Intelligence Analysis Capacity (SIAC) and by supporting the fight against foreign interference and information manipulation), as well as to support the implementation of Security and Defence Partnerships in EU Delegations.

In parallel, additional resources are required to address underfunded non-salary expenditure, notably security-related costs in EU Delegations. This includes investments in secure communications, protective infrastructure and armoured vehicles, as well as enhanced security measures for staff in high-risk locations.

In a constrained financial context, these targeted reinforcements represent essential investments to ensure the effectiveness, credibility and security of the EU's global diplomatic presence while responding to the priorities and expectations of Member States. Efforts have therefore been made to streamline existing expenditures and reallocate resources wherever possible in order to maintain overall budgetary discipline.
