

SECTION V — COURT OF AUDITORS

INTRODUCTION

The introduction to the budget request has been provided by each Institution together with the statement of estimate for its respective budget section. In line with Article 314§1 of the TFEU, which states that: ‘[...] each Institution shall [...] draw up estimates of its expenditure for the following financial year. The Commission shall consolidate these estimates in a draft budget, which may contain different estimates.’, the Commission has exceptionally adjusted the estimates of all Institutions. It is thus possible that figures referred to in the introduction of a specific budget section are different from those integrated into the Draft Budget.

1 INTRODUCTION

Mission and vision of the European Court of Auditors

We perform independent, high-quality and impactful audits to improve the governance, accountability, transparency and sound financial management of EU action, thereby enhancing citizens’ trust and contributing effectively to the response to current and future challenges facing the EU.

We enhance trust in the Union by contributing to improved governance and resilience.

Our audit reports and opinions are an essential element of the EU accountability chain. They are used to improve governance and to hold to account those responsible for implementing EU policies and programmes: the Commission, other EU institutions and bodies, and national administrations. Through our work, we want to increase trust in the EU by helping citizens understand more clearly how the EU and its member states are meeting current and future challenges.

As we look ahead, several key challenges currently stand before the EU. Amid geopolitical tensions and economic uncertainties, our global competitiveness is declining, risking our influence. At the same time, the EU looks to protect its citizens by strengthening defence and continues to pursue environmental targets for sustainable growth and climate action.

Our 2026+ work programme coincides with the first year of the new ECA 2026-2030 Strategy, which calls for us to ‘Target our audits where we add most value’. We will therefore focus our work on what we consider to be four strategic areas. They take account of existing commitments regarding the use of EU funds, the Union’s priorities, and emerging trends and challenges. We will address them with several audits and reviews, among others, focused on:

- EU support for worker upskilling and reskilling, competitiveness of the European wind industry, European trade defence instruments, and investments in AI and High-Performance Computing, under strategic area ‘The Union’s economic competitiveness and resilience, including innovation, digital transition, trade and strategic autonomy’;
- Act in Support of Ammunition Production (ASAP), EU defence policy, increased support for Ukraine, efforts to protect external borders, EU’s systems related to returns, readmission agreements and reintegration, under strategic area ‘The Union’s security, defence, democratic values and external action, including enlargement and migration’;
- Innovation Fund for green transition, achieving the EU Solar Strategy targets, and decarbonisation of EU industry, under strategic area ‘The Union’s transition to becoming climate-change resilient and economically, socially and environmentally sustainable’; and
- Transparency and traceability of Recovery and Resilience Facility funds, revisions of recovery and resilience plans, member states’ IT systems for managing customs duties, under strategic area ‘Safeguarding and sustaining the Union’s public finances, including robust economic, financial and fiscal governance’.

While our work programme tackles the challenges facing the EU and its citizens, the ongoing negotiations for the next Multiannual Financial Framework offer an opportunity for legislators to create an ambitious, long-term budget that fosters a thriving society and economy in the coming decade. We will closely monitor this

process and support the legislators through a series of opinions on the legislative proposals. Central to this legislative process must lie accountability and transparency, fundamental for building citizens' trust. Our mission remains constant: reinforcing trust through audit.

To meet the expectations of the European Parliament and the Council, the ECA is continuously looking for opportunities to optimise the use of its resources, making savings, increasing efficiency and requesting financing only for justified needs.

The ECA is following a rigorous approach in respect of the administrative expenditure and staffing, while preserving its capacity to attract and retain highly qualified professional staff from within the European Union.

As indicated in the guidelines for the establishment of the budget from Commissioner Serafin ¹ and the Director General ² of DG BUDG, the Commission invites all Institutions to apply a stable staff policy and to limit the increase for all non-salary related expenditure to a maximum of 2 % compared to the 2026 budget.

In October 2027 the ECA will celebrate the 50th anniversary of its start of work. The ECA's estimate of revenue and expenditure for the financial year 2027 (Draft budget 2027) includes additional appropriations³ to cover this exceptional event and appropriation for the regular daily activities and continuity of services. The ECA tried to absorb expenditure linked to this exceptional event within the limits set by the MFF and detailed in the guidelines while maintaining the substantial savings that have been achieved in the past.

However, this exceptional expenditure combined with indexation and inflation in Luxembourg, does not permit us to remain within the 2 % limit on non-salary related expenditure for the Draft budget 2027.

On this basis, the total amount sought for the Draft budget 2027 represents an overall increase of 2.98 % compared to 2026, mainly explained by the assumptions related to salaries and allowances (see point 2.1.1), the expected level of price indexation for the purchase of goods and services, and to a lesser extent the exceptional budget for the 50th anniversary.

The split between salary and non-salary related expenditures is shown in the following table:

(euros)

	Proposed Budget 2027	Adopted Budget 2026	Change in %
Salary-related expenditure	167 707 000	162 241 000	3,37 %
Members-related expenditure	12 429 000	12 918 000	– 3,79 %
Non-salary related expenditure	26 032 000	25 034 000	3,99 %
Provisional appropriations	p. m.	p. m.	
Total Budget request	206 168 000	200 193 000	2,98 %

With regards to salary-related expenditure, the increase is mainly driven by two factors:

- the estimates for salary updates as communicated by the Commission;
- The impact of career progression including promotion and steps.

No additional posts are requested in the establishment plan (total of 881 posts) but a request for transformation of posts is described in point 2.1.4 and in point 3.1 - Annex I. Taking into account the current vacancy rate (in January 2026), the standard abatement in the Draft budget 2027 is set at 2,4 %.

The Draft budget 2027 includes in its Chapter 12 and Chapter 14 the necessary appropriations for the payment of the temporary Housing allowance for staff in the lower grades of the salary grid residing in Luxembourg, to compensate for the high cost of living there.

¹ Letter of 18 December 2025 from Commissioner Serafin to President Murphy.

² Note of 12 December 2025 Establishment of the 2027 Statement of Estimates and Draft Budget (DB).

³ €125 000 in budget line 2540 Meetings, congresses and conferences and €13 000 in budget line 2560 Expenditure on the dissemination of information and on participation in public events.

Regarding non-salary related expenditure, although significant efforts have been made to limit the increase compared to 2026, the indexation for the purchase of goods and services in Luxembourg, and the exceptional budget for the 50th anniversary event prevent the ECA to fully respect the Commission's guidelines.

In addition, in accordance with the Commission's guidelines and in keeping with the continuity from 2026, the Draft budget 2027 includes a separate classification for Members-related expenditure (remunerations and other entitlements, missions, training, and representation expenses). The dedicated line 'Members-related expenditure' includes both salary and non-salary components. The decrease of 3.79 % compared to 2026 is mainly explained by the absence of Members' mandates starting / ending in 2027 and the limited number of beneficiaries of temporary allowance.

The present document explains the ECA's estimate of revenue and expenditure for 2027 and outlines the changes related to the approved 2026 budget.

1.1 Adequate resources to meet demands

1.1.1 Establishment plan

No additional posts are sought for 2027. Consequently, the establishment plan for 2027 totals 881 authorised posts.

However, the ECA requests a transformation of the 29 temporary posts granted in 2022 and 2023 by the budgetary authority to cover the increase of audit activities related to the NGEU programme, as explained in point 2.1.4 and in point 3.1 – Annex I.

1.1.2 Implications for the standard abatement

The standard abatement, set at 2,4 % in the Draft budget 2027, corresponds to 21,14 vacant posts. Any further increase might jeopardise the quantity and quality of the outputs provided by the ECA to the European Parliament and the Council.

2 RECURRENT MATTER

2.1 Staff matters

2.1.1 Assumptions in establishing the budget for Members' emoluments and for salaries and allowances of staff

In accordance with the guidelines issued by the Commission, the budget for Members' emoluments (Chapter 10) and for the salaries and allowances of permanent and temporary staff (Chapter 12) and other servants (Chapter 14) is based on the following assumptions:

- an adjustment of salaries and allowances of + 2,2 % as of 1 July 2026;
- an adjustment of salaries and allowances of + 2,3 % as of 1 July 2027.

2.1.2 Additional posts

For 2027, the ECA does not request additional posts.

2.1.3 Upgrades of permanent and temporary posts

Article 6, Annex I, Section B of the Staff Regulation governs the upgrading of posts for career development purposes. It stipulates that institutions must ensure that sufficient opportunities for promotion are available to meet pre-defined percentage rates for each grade. To meet this requirement, 35 upgrades are necessary in 2027, as follows:

Upgrades from ... to	Number of permanent posts	Number of temporary posts
AD10 to AD11	11	
AD9 to AD10	4	
AD6 to AD9	1	

Upgrades from ... to	Number of permanent posts	Number of temporary posts
AD5 to AD6	3	
AST10 to AST11	2	
AST8 to AST9	1	
AST7 to AST8	6	
AST6 to AST7	4	
AST4 to AST5		2
SC4 to SC6	1	
Total upgrades	33	2

These upgrades do not represent any individual rights for officials to be promoted, and do not imply any obligation to grant promotions. Promotion decisions are mainly based on merit, as provided for by Article 45 of the Staff Regulations.

2.1.4 Transformation – permanent and temporary posts

The ECA requests the transformation of the 29 temporary posts granted for NGEU in 2022 and 2023 into 29 permanent posts to continue carrying out its audit mandate obligations (see point 3.1 - Annex I). This transformation of posts does not entail any increase in the level of appropriations under Chapter 12 in the Draft budget 2027.

Transformations from ... to	Number of posts
AD7 TP to AD7 PP	19
AD5 TP to AD5 PP	10

2.1.5 Evolution of the number of external staff

The total number of external staff remains unchanged compared to the budget 2026. The slight increase in contractual agents is offset by a reduced number of Seconded National Experts detached to the ECA, due to difficulties to attract them, and by a limited use of interim staff. The increase in appropriations for external staff is mainly explained by the salary increase.

The global overview, including full-time equivalents (FTEs) and related appropriations, is summarised in the table below:

Type of staff	Voted Budget 2026		Statement of estimates 2027	
	Appropriations (euros)	Estimated number of FTE (*) on the basis of authorised appropriations	Appropriations (euros)	Estimated number of FTE (*) on the basis of requested appropriations
Contractual Agents	6 785 000	85	7 388 000	89
Seconded National Experts	2 467 000	31	2 209 000	28
Local Agents	n.a.	n.a.	n.a.	n.a.
Interim staff	275 000	6	250 000	5
Parliamentary Assistants	n.a.	n.a.	n.a.	n.a.
Total	9 527 000	122	9 847 000	122
(*) Full-time equivalent units				

2.1.6 Number of posts and annual average of Full-Time Equivalent (FTE)

In line with article 41.3.B (III) of the Financial Regulation, the number of posts actually filled on 31 December 2025 is 854 and the annual average of FTEs actually in place for the year 2025 is 839,15. A detailed table is available in the working documents attached.

2.2 Mission expenditure

Estimates of needs for mission appropriations (budget line 162) for the forthcoming financial year are drawn up in the preceding year (year n-1). We expect more missions and higher prices in 2027. The Court adopts its annual work programme towards the end of the year. When preparing its draft budget, the ECA estimates its needs based on the results of its multi-annual work programming exercise, carried out in October of year n-2.

The ECA takes all possible measures to ensure that mission appropriations are used with the strictest respect for the principles of economy, efficiency and effectiveness. Even if it cannot predict its needs accurately, the ECA does ensure that the appropriations that are used provide good value for money. For the Draft budget 2027 the ECA requests a 3,35 % increase compared to 2026, i.e. an amount of €2 745 000.

Annex II: Statement of policy for permanent and temporary staff as required under Article 41 of the Financial Regulation

Annex III: Explanations for budget lines with increases and decreases

Annex IV: Allocation of resources per activities

Annex V: Operational needs and projects not included in the Draft budget 2027

3.1 Annex I – Securing permanent audit resources: challenges for the ECA in 2027 and beyond

3.1.1 Context

The European Court of Auditors (ECA) is the EU's independent external auditor. It plays a fundamental role in strengthening the accountability of the EU. Through its work that contributes to ensuring that the EU taxpayer's money is effectively, efficiently, economically, legally and regularly spent, it fosters trust and supports the long-term legitimacy and acceptance of the EU by its citizens. The Council of the EU (Council) and the European Parliament (EP) have consistently requested increased independent oversight of EU activities to help them fulfil their responsibilities as the budgetary / discharge authorities over the implementation of the EU budget. This has led to the ECA expanding both the areas covered by its audits and the level of detail within them. At the same time, the EU has extended its portfolio of activities and the remit of the ECA's audits has extended accordingly.

Against the backdrop of a substantial increase of the EU's multiannual financial framework (MFF) for 2021-2027, linked to the recovery plan following the COVID-19 pandemic, the ECA analysed its ability to continue carrying out its audit mandate obligations in accordance with international auditing standards and thereby fulfilling the high expectations that EU institutional stakeholders and citizens place in the institution. Due to the considerable additional workload stemming from the Next Generation EU (NGEU), the budgetary authority granted the ECA additional audit resources, including 20 temporary posts in 2022 budget and another 9 in 2023, dedicated entirely to NGEU audit work. Despite the impact on support services, none of these posts have been used for non-audit tasks, as the ECA strives to reduce administrative overhead and allocate more staff directly to audit outputs.

However, since all the posts are temporary, the budgetary authority expects the ECA to return the 29 posts by the end of 2027. This analysis explains the importance of converting these temporary posts into permanent posts within the ECA's establishment plan for 2027 and beyond so that we are able to meet future challenges.

3.1.2 Challenges facing the ECA in 2027 and beyond

3.1.2.1 Securing permanent posts for the 29 NGEU auditors

The recruitment of 29 auditors for the temporary NGEU positions was a considerable challenge, marked by an unusually high refusal rate. The primary reasons candidates declined ECA's employment offer were the

high cost of living in Luxembourg, reluctance to leave more lucrative positions in the private sector, and competition with opportunities in Brussels. The ECA invested substantial effort to attract highly skilled professionals for NGEU positions and to train them, not only in the specifics of the Recovery and Resilience Facility (RRF), but also in ECA's audit methodology at large. In light of the above-mentioned challenges in recruiting and also given the expertise acquired by these auditors, releasing these experienced staff members after successfully attracting them to Luxembourg and thoroughly training them would result in a regrettable waste of investment.

As it stands, the ECA is set to reduce its workforce by 29 posts by the end of 2027. However, the audit work on the NGEU initiative will not be completed within this timeframe. The ECA must conduct final performance analyses during 2027 and 2028, along with follow-up work on previous audit findings, in accordance with the auditing standards⁴, several years after the initial audits.

The Commission's legislative proposals for the 2028-2034 MFF mark a clear shift towards a performance-oriented budget. Some key programmes would be merged into a single national and regional partnership plan for each Member State, with funding linked to the achievement of investments and reforms aligned with EU priorities, following a model similar to the RRF model. This transition from compliance- to performance-based audits fundamentally changes the nature of audit work. Auditors will need strong expertise in performance evaluation, data analysis and strategic assessment to audit the implementation of Member States' plans against 27 distinct sets of national milestones and targets. This profile precisely matches that of the staff recruited on the 29 NGEU temporary posts.

Several additional features of the proposed MFF further underline the necessity of retaining these 29 experienced staff members. Under the Commission's plans for the proposed 'European Fund', ex-ante checks by the Commission for the fulfilment of milestones and targets will be discontinued, making independent verification by the ECA essential. Since milestones and targets will differ across Member States, audit evidence will be highly heterogeneous and, in the absence of ex-ante verifications, not readily available at EU level. In addition, Member States will be allowed to submit a higher number of payment requests each year than under the current MFF. Together, these developments will significantly increase audit workload and complexity, requiring permanent resources to ensure adequate coverage and effective handling of diverse audit data.

3.1.2.2 Maintaining agility amidst evolving policy landscapes

The Council and the EP have long requested the ECA to provide more detailed information in its Annual Reports. The ECA has been willing to address such requests whenever feasible workforce-wise, like it did with the addition of a new specific assessment for the MFF Heading 6. This agile response was feasible due to the ECA's adequate operational capacity. However, a planned reduction of 29 posts by 2027 may compromise the ECA's ability to swiftly and effectively meet the needs and expectations from its stakeholders. Securing these posts permanently would provide essential stability, enabling the ECA to maintain operational capacity and uphold its commitments without compromising audit quality.

In addition, the ECA faces an increasingly demanding landscape due to rapid changes in several key policy domains, necessitating the retention of its current workforce to effectively audit these areas, meet heightened expectations and contribute to an effective accountability. The digital transformation and cybersecurity are at the forefront; the EU's digital agenda and cybersecurity strategies require auditors with advanced technological expertise to assess and anticipate risks like cyberattacks. Legislative updates in cybersecurity, such as the NIS2 Directive and the Cyber Resilience Act, underline the need for skilled auditors, while the increase in interoperable data mining tools from 2028 further demands IT-specialised auditors with some relevant audit work that should take place beforehand.

Moreover, the expanding number of EU agencies and broadening of their mandates have added complexity to operations and increased audit requirements. Significant budget increases for agencies like Frontex, along with new responsibilities in areas such as digital operational resilience and crypto assets, demand consistent

⁴ See 'ISSAI 300, Fundamental Principles of Performance Auditing', INTOSAI, page 41, and 'ISSAI 400, Fundamental Principles of Compliance Auditing', INTOSAI, page 28.

audit coverage, requiring the ECA to strengthen its resources in these areas. More generally, the agencies' overall budget increased from €2.0 billion to €5.3 billion between 2013 and 2024, marking a 165 % rise. This growing workload for agencies increasingly demands audit resources to the detriment of other audit fields.

Beyond traditional EU policies, the Commission's proposals also foresee a major expansion of funding in areas like security, defence and competitiveness, which until now have required relatively limited audit resources. Geopolitical developments, such as increased EU support for Ukraine and migration-related pressures, further add to the complexity. The growing emphasis on EU defence funding and the accession prospects of countries like Ukraine and Moldova would call for comprehensive audit work to oversee these heightened budgetary allocations. As EU spending on security and defence rise, the ECA will need to audit complex defence procurement processes, which often involve restricted information and extended timelines, thereby demanding additional resources.

In addition, with climate policy intertwined with economic competitiveness and security, the European Green Deal and further initiatives necessitate multidisciplinary audit teams to assess impacts across diverse sectors. Addressing these challenges effectively demands the ECA to maintain its operational capacity, preventing resource cuts that could undermine its ability to provide thorough, high-quality audits critical for the EU's evolving needs.

At the same time, EU borrowing is expected to remain at a high level in the next MFF, potentially exceeding traditional ceilings. This would transform debt and treasury management from a temporary remit linked to the NGEU to a permanent focus for the ECA. Finally, the Commission proposes the introduction of five new diverse own resources, raising their total number from four to nine. This expansion will substantially broaden audit coverage requirements: the number of management and control systems to be audited at both Member State and Commission level will more than double, and substantive testing will need to cover all nine own resources annually to support the ECA's Statement of Assurance on EU revenue.

3.1.3 Conclusion

The ECA has consistently focused on optimising the use of its existing resources by conducting regular and thorough needs assessments. These assessments enabled the ECA to redirect resources to new priorities. Reducing the current audit workforce by 29 posts would make it impossible to fully address these needs by redistributing resources from less prioritised areas within the existing budget while still maintaining adequate resources for the implementation of our core activities.

Allowing the ECA to keep the 29 posts on a permanent basis in its 2027 budget will enable it to address future challenges effectively and remain a cornerstone of accountability for EU action by safeguarding the high standard and quality of its Statement of Assurance and other audit work.

3.2 Annex II – Statement of policy for permanent and temporary staff as required under Article 41 of the Financial Regulation

The primary aim of the European Court of Auditors is to carry out its core activity as defined in Article 287 of the Treaty on the Functioning of the European Union.

To this end, the ECA has sought and obtained from the European Parliament and the Council permanent and temporary posts. Its requests for posts are based upon the best possible assessments of the minimum resources necessary to fulfil its treaty obligations economically, efficiently and effectively, and thus to meet the reasoned needs of the European Parliament and the Council and of other users of the ECA's outputs.

Having obtained the posts that the ECA thus identifies as necessary, the ECA seeks to recruit suitably qualified and experienced staff to fill them, taking into account the diverse cultural, linguistic and professional differences within the EU. Furthermore, it operates a human resources policy aiming to develop recognised expertise in financial, compliance and performance audit, providing career opportunities and developing the skills of staff, supporting knowledge sharing and exchange with SAIs and other professionals, academia and think-tanks, and fine-tune task-based organisation structure to enhance the ECA's overall efficiency and flexibility.

This policy is periodically reviewed and enhanced to encourage staff to perform at their best. The ECA aims to retain a high proportion of its staff on a long-term basis, and to assist any staff who are identified as not performing to expected levels to overcome any problems they are encountering.

The ECA has encountered problems in recruiting and retaining professional staff in recent years. To overcome these problems and prevent a reoccurrence in the future, a series of measures have been taken, such as:

- complementary training for recruits and the inclusion of initial training and work experience within a managed structure of career-long professional development;
- careful attention to ensure that career development prospects at the ECA are at least equal to those in other institutions, most notably through the upgrading of posts as necessary, in accordance with the provisions of the Staff Regulations;
- a system of staff evaluation that assesses performance against clear objectives, including objectives related to professional development;
- attention to the working environment and to related social infrastructures in an attempt to counteract the ‘Brussels’ effect – the cheaper living costs and perceived better lifestyle available for young staff in Brussels compared to Luxembourg.

When members of staff decide to leave the ECA to follow a career in another institution, the ECA considers that, on a global basis, such mobility has the potential to add overall value to the European Union’s financial management, as long as the rate of turnover of ECA staff is sustainable.

The ECA strives to be an equal opportunities employer at all stages of its staff’s careers. A number of actions have been implemented in recent years in order to make sure that everyone in our institution has equal opportunity to use their talents and develop their potential, thus contributing to the achievement of the institution’s goals.
